Product Description

The LOCINOX 3015MS Spanner is a specialized installation tool designed specifically for mounting Locinox gate locks. This essential tool is required to securely bolt the lock to the gate frame, ensuring a robust and reliable installation.

It is particularly suited for older generation Locinox locks (such as the LC, LCKX, and LCKZ series) that utilize a nut-over-pin mounting system. Whether you are installing a new lock or removing an older model to upgrade to a newer generation, this compact and lightweight spanner provides the precise fit needed to complete the job without damaging the lock components.

Brand Profile

Locinox

Locinox is a Belgium-based specialist manufacturer of **gate and fence hardware**, best known in the trade for installer-friendly, high-durability components like **gate locks, hinges, gate closers, latches**, and **electro-mechanical access control** parts designed specifically for outdoor, weather-exposed gates. Their whole pitch is "make the gate hardware the least annoying part of the job," with products engineered for fast fitting, consistent adjustment, and long service life.

The company is headquartered in **Waregem, Belgium**, and traces its origins to **1988** (often described as "over 30 years" in gate tech). Locinox supplies into **70+ countries**, positioning itself as a trendsetter in the fencing/gate world rather than a generic ironmongery line.
