Product Description

The Locinox 3DW 350 is a robust, vandal-proof strap hinge designed specifically for wooden gates. Engineered to offer exceptional durability and security, this heavy-duty hinge provides a full 180-degree opening angle and can support gates weighing up to 350kg.

A key advantage of the 3DW 350 is its versatile three-way adjustment system. This allows for precise post-installation alignment, enabling you to adjust the height, left/right alignment, and swing direction with ease. It is also fully reversible, making it suitable for both left and right-hand opening gates.

Constructed with a stainless steel body (including the hinge socket, axle, and socket cover plate), this hinge is built to withstand harsh outdoor environments. It is available in a choice of finishes and weights - please select your preferred options from the list below.

Brand Profile

Locinox

Locinox is a Belgium-based specialist manufacturer of **gate and fence hardware**, best known in the trade for installer-friendly, high-durability components like **gate locks, hinges, gate closers, latches**, and **electro-mechanical access control** parts designed specifically for outdoor, weather-exposed gates. Their whole pitch is “make the gate hardware the least annoying part of the job,” with products engineered for fast fitting, consistent adjustment, and long service life.

The company is headquartered in **Waregem, Belgium**, and traces its origins to **1988** (often described as “over 30 years” in gate tech). Locinox supplies into **70+ countries**, positioning itself as a trendsetter in the fencing/gate world rather than a generic ironmongery line.
