Specification Summary

Brand	Locinox
Product type	Gate Locks

Product Description

The Locinox H-WOOD is a premium-grade insert lock engineered specifically for wooden swing gates. Featuring a 100% stainless steel mechanism, front plate, latch, and hook, this lock offers exceptional corrosion resistance and durability in demanding outdoor environments.

Designed for seamless integration into timber gates with a minimum depth of 85mm, the H-WOOD features a 60mm backset and a fully reversible latch bolt to suit both left and right-handed configurations. The self-latching bolt can be adjusted continuously by up to 20mm without dismantling the lock, ensuring a perfect fit. For robust security, the heavy-duty stainless steel hook bolt provides a 33mm throw. When paired with a compatible SHKW keep, this hook deadbolt securely anchors the gate to prevent it from being forced or pried open.

Please note: The Euro profile cylinder, handles, and keep are not included and must be purchased separately.

Technical Specifications

- **Brand:** Locinox
- **Backset:** 60mm
- **Bolt Throw:** 33mm
- **Case Depth:** 77mm
- **Height:** 230mm
- **Width:** 30mm
- **Plate Depth:** 3mm

Brand Profile

Locinox

Locinox is a Belgium-based specialist manufacturer of **gate and fence hardware**, best known in the trade for installer-friendly, high-durability components like **gate locks, hinges, gate closers, latches**, and **electro-mechanical access control** parts designed specifically for outdoor, weather-exposed gates. Their whole pitch is "make the gate hardware the least annoying part of the job," with products engineered for fast fitting, consistent adjustment, and long service life.

The company is headquartered in **Waregem, Belgium**, and traces its origins to **1988** (often described as "over 30 years" in gate tech). Locinox supplies into **70+ countries**, positioning itself as a trendsetter in the fencing/gate world rather than a generic ironmongery line.
