Product Description

The Locinox Fiftylock gate kit is a complete insert mortice lock set designed specifically for 50mm box section metal, aluminium, or PVC gates. This comprehensive kit includes everything needed for a secure and sleek installation: an insert mortice lock, a cylinder with three keys, a surface-mounted SFKO keep, a pair of tubular-style anodised aluminium handles in a black finish, and matching escutcheons.

The lock features a 100% stainless steel mechanism, including an adjustable self-latching bolt and a solid 21mm hook. When combined with the included surface-mounted keep, this ensures a highly secure closure, preventing the gate wings from being pulled apart or forced open. The self-latching day bolt offers up to 10mm of continuous adjustment without needing to dismount the lock, and it can be easily reversed for left- or right-handed gates.

Additionally, the lock mechanism is protected by a cover plate to prevent dirt and debris penetration, ensuring long-term reliability. The set is Secured by Design accredited, providing peace of mind regarding its security standards.

Brand Profile

Locinox

Locinox is a Belgium-based specialist manufacturer of **gate and fence hardware**, best known in the trade for installer-friendly, high-durability components like **gate locks, hinges, gate closers, latches**, and **electro-mechanical access control** parts designed specifically for outdoor, weather-exposed gates. Their whole pitch is "make the gate hardware the least annoying part of the job," with products engineered for fast fitting, consistent adjustment, and long service life.

The company is headquartered in **Waregem, Belgium**, and traces its origins to **1988** (often described as "over 30 years" in gate tech). Locinox supplies into **70+ countries**, positioning itself as a trendsetter in the fencing/gate world rather than a generic ironmongery line.
