Specification Summary

Brand	Locinox
Product type	Gate Locks

Product Description

The Locinox SHKC Stainless Steel Keep is a high-quality, robust gate strike designed specifically for use with the Locinox H-Compact insert lock. Engineered to provide a secure anchoring solution, this versatile keep is suitable for both swing and sliding gates, making it an excellent choice for various gate configurations.

Constructed from durable stainless steel with a 6mm thick front plate, the SHKC keep is built to withstand the elements and resist corrosion. It features an integrated plastic box that acts as a protective barrier, preventing dirt, debris, and water from entering the gate profile. Additionally, its clever design provides anti-lift protection, preventing the gate from being pried or lifted out of the keep for enhanced security. With its non-handed design, it can be easily installed on both left and right-handed gates.

Brand Profile

Locinox

Locinox is a Belgium-based specialist manufacturer of **gate and fence hardware**, best known in the trade for installer-friendly, high-durability components like **gate locks, hinges, gate closers, latches**, and **electro-mechanical access control** parts designed specifically for outdoor, weather-exposed gates. Their whole pitch is "make the gate hardware the least annoying part of the job," with products engineered for fast fitting, consistent adjustment, and long service life.

The company is headquartered in **Waregem, Belgium**, and traces its origins to **1988** (often described as "over 30 years" in gate tech). Locinox supplies into **70+ countries**, positioning itself as a trendsetter in the fencing/gate world rather than a generic ironmongery line.
