Specification Summary

Brand	Locinox
Product type	Gate Locks

Product Description

The Locinox SHKW Aluminium Keep is a robust and reliable gate receiver specifically designed to work in combination with the Locinox H-WOOD insert lock on timber gates. Manufactured from high-quality aluminium, this keep ensures a strong and secure gate anchoring point, keeping your wooden gate firmly closed.

This keep is suitable for wooden gate profiles with a depth of 40mm to 60mm. It features an integrated anchoring plate for the lock's hook deadbolt, which prevents the gate from being forced or pried open. The non-handed design is fully reversible for left or right-handed installations, and it comes complete with wood screws and an adjustable stop plate for a straightforward setup.

Technical Specifications

- **Brand:** Locinox
- **Manufacturer Reference:** 6064103 (SHKW-ALUM)
- **Material:** Aluminium
- **Finish:** Silver
- **Height:** 270mm
- **Width:** 56mm

Brand Profile

Locinox

Locinox is a Belgium-based specialist manufacturer of **gate and fence hardware**, best known in the trade for installer-friendly, high-durability components like **gate locks, hinges, gate closers, latches**, and **electro-mechanical access control** parts designed specifically for outdoor, weather-exposed gates. Their whole pitch is “make the gate hardware the least annoying part of the job,” with products engineered for fast fitting, consistent adjustment, and long service life.

The company is headquartered in **Waregem, Belgium**, and traces its origins to **1988** (often described as “over 30 years” in gate tech). Locinox supplies into **70+ countries**, positioning itself as a trendsetter in the fencing/gate world rather than a generic ironmongery line.
