Specification Summary

Brand	Locinox
Product type	Locinox

Product Description

The LOCINOX Slimstone Keypad is a highly durable, weather-resistant access control keypad designed to perform in the most extreme conditions. Tested to operate reliably in temperatures ranging from -30°C to +85°C, it features smart heating to remain completely frost-free. With an IP68 rating, it offers maximum protection against dust and water ingress.

Constructed for longevity and security, the keypad features a vandal-proof aluminium housing with a scratch-resistant textured lacquer, alongside stainless steel buttons tested to over 1,000,000 presses. It allows for quick and easy surface mounting and comes complete with a 2-metre connection cable. Users can program up to 100 different entry codes directly via the keypad, and integrated LED lighting ensures clear visibility in low-light conditions.

This keypad is available in multiple configurations, including versions with or without integrated relays. Please select your preferred relay option, along with the corresponding weight, barcode, and manufacturer reference, from the options below.

Technical Specifications

- **Brand:** Locinox
- **Input Voltage:** 10/26V AC/DC
- **Current Consumption:** 1.0A
- **IP Rating:** IP68
- **Operating Temperature:** -30°C to +85°C
- **Dimensions:** 137mm (H) x 54mm (W) x 24mm (D)
- **Finish:** Black
- **Illumination:** Yes (LED)
- **Programming:** Via keypad (up to 100 user codes)
- **Connections:** Terminals (includes 2m cable)
- **Controller Required:** No
- **Relay Options (Notes):** Available with two integrated relays or without integrated relays (please choose from the options below)
- **Weight:** 780g or 800g (please choose from the options below)
- **Manufacturer Reference:** 606420 or 6064201 (please choose from the options below)
- **Barcode:** 5056240112701 or 5056240141817 (please choose from the options below)

Key Features

- **Extreme Weather Resistance:** IP68 rated and tested from -30°C to +85°C with smart heating to remain frost-free.
- **Vandal-Resistant Build:** Robust aluminium housing with scratch-resistant textured lacquer and stainless steel buttons tested to 1,000,000 pushes.
- **Flexible Access Control:** Supports up to 100 user codes, easily programmed directly via the keypad.
- **Integrated LED Lighting:** Ensures clear visibility and ease of use in dark or low-light conditions.
- **Simple Installation:** Quick and easy to mount, supplied with a 2-metre connection cable.
- **Versatile Configurations:** Choose between models with or without integrated relays to suit your automation setup.

Brand Profile

Locinox

Locinox is a Belgium-based specialist manufacturer of **gate and fence hardware**, best known in the trade for installer-friendly, high-durability components like **gate locks, hinges, gate closers, latches**, and **electro-mechanical access control** parts designed specifically for outdoor, weather-exposed gates. Their whole pitch is "make the gate hardware the least annoying part of the job," with products engineered for fast fitting, consistent adjustment, and long service life.

The company is headquartered in **Waregem, Belgium**, and traces its origins to **1988** (often described as "over 30 years" in gate tech). Locinox supplies into **70+ countries**, positioning itself as a trendsetter in the fencing/gate world rather than a generic ironmongery line.
