Specification Summary

Brand	Locinox
Product type	Locinox

Product Description

The Locinox MAGMAG3000 is a robust, surface-mounted electromagnetic gate lock designed specifically for outdoor access control. Suitable for square posts and gate profiles ranging from 40mm to 80mm, this lock is supplied without integrated handles, making it ideal for clean, minimalist gate setups or installations where separate handles are preferred.

Engineered to withstand harsh outdoor conditions, it features a powder-coated aluminium housing with 500-hour salt spray resistance. Security is enhanced by a raised edge on the magnet housing, which acts as an anti-pry system to deter crowbar attacks. Additionally, the lock incorporates an anti-residual magnetism kick-off system to ensure smooth, immediate release when power is cut.

Installation is quick and straightforward using the Locinox Quick-Fix mounting system, eliminating the need for time-consuming welding. The lock operates on a dual-voltage system (12V/24V DC) and is fail-safe (fail-open), ensuring the gate unlocks automatically in the event of a power failure to maintain safety.

This product is available in multiple finishes, including Black and Silver, with corresponding manufacturer references and barcodes. Please choose your preferred option from the selection below.

Technical Specifications

- **Brand:** Locinox
- **Holding Force:** 300kg (660lbs)
- **Input Voltage:** 12V / 24V DC
- **Current Consumption:** 500mA @ 12V DC / 250mA @ 24V DC
- **Operation:** Fail Safe (Fail Open)
- **Gate Profile Compatibility:** 40mm to 80mm (square posts)
- **Weather Resistance:** Yes (500-hour salt spray resistant)
- **Housing Material:** Powder-coated aluminium
- **Weight:** 3.36kg
- **Guarantee:** 2 Years
- **Finish:** Black or Silver (please select option below)
- **Manufacturer Reference:** 605015 / 6050151 (please select option below)
- **Barcode:** 5414768062524 / 5414768062531 (please select option below)

Key Features

- **No-Handle Design:** Supplied without integrated handles for a clean look or custom handle setups.
- **Anti-Pry Protection:** Raised edge on the magnet housing deters crowbar attacks by preventing entry between the magnet and armature plate.
- **Quick-Fix Installation:** Fast and secure mounting without the need for welding.
- **Anti-Residual Magnetism:** Integrated kick-off system prevents the gate from sticking when power is removed.
- **Fail-Safe Operation:** Automatically unlocks when power is lost to ensure safe egress.
- **Durable Construction:** Highly weather-resistant powder-coated aluminium casing designed for long-term outdoor use.
- **Multiple Finishes:** Available in Black or Silver to match your gate aesthetics (please select below).

Brand Profile

Locinox

Locinox is a Belgium-based specialist manufacturer of **gate and fence hardware**, best known in the trade for installer-friendly, high-durability components like **gate locks, hinges, gate closers, latches**, and **electro-mechanical access control** parts designed specifically for outdoor, weather-exposed gates. Their whole pitch is “make the gate hardware the least annoying part of the job,” with products engineered for fast fitting, consistent adjustment, and long service life.

The company is headquartered in **Waregem, Belgium**, and traces its origins to **1988** (often described as “over 30 years” in gate tech). Locinox supplies into **70+ countries**, positioning itself as a trendsetter in the fencing/gate world rather than a generic ironmongery line.
