Specification Summary

Brand	Locinox
Product type	Gate Locks

Product Description

The Locinox U-Safe is a high-quality stainless steel safety cable designed to prevent swing gates weighing up to 500kg from falling in the event of a hinge failure. Developed in accordance with the European Standard EN 12604, this safety cable ensures that a gate leaf cannot fall or deviate dangerously if a load-bearing hinge fails, providing crucial protection for users and nearby property.

The cable features a robust 5mm diameter stainless steel core encased in a 1mm thick transparent protective sleeve, bringing the total diameter to 6mm. This protective sleeve prevents the cable from scratching or damaging

the gate's finish.

Installation is quick and highly secure thanks to Locinox's patented Quick-Fix system, which firmly anchors the cable to both the gate post and the frame. With a pulling force rating of up to 1500kg, the U-Safe offers reliable, heavy-duty fall protection while maintaining a discreet, minimalist appearance on the inside of the gate.

Technical Specifications

- **Brand:** Locinox
- **Manufacturer Reference:** 601076 (L34599)
- **Cable Length:** 300mm (30cm)
- **Cable Diameter:** 5mm (with 1mm transparent protective sleeve, 6mm total)
- **Material:** Stainless Steel
- **Maximum Gate Weight:** 500kg
- **Pulling Force Rating:** 1500kg
- **Standards Compliance:** EN 12604
- **Weight:** 360g
- **Pack Quantity:** 1

Key Features

- **Hinge Failure Protection:** Prevents heavy gates up to 500kg from falling if one or both hinges fail.
- **EN 12604 Compliant:** Developed to meet European safety standards for swing gates.
- **Patented Quick-Fix System:** Ensures a fast, simple, and incredibly secure installation.
- **Protective Sleeve:** 1mm transparent cover prevents the stainless steel cable from scratching the gate or post.
- **Discreet Design:** Minimalist aesthetic that mounts neatly to the inside of the gate frame.

Brand Profile

Locinox

Locinox is a Belgium-based specialist manufacturer of **gate and fence hardware**, best known in the trade for installer-friendly, high-durability components like **gate locks, hinges, gate closers, latches**, and **electro-mechanical access control** parts designed specifically for outdoor, weather-exposed gates. Their whole pitch is "make the gate hardware the least annoying part of the job," with products engineered for fast fitting, consistent adjustment, and long service life.

The company is headquartered in **Waregem, Belgium**, and traces its origins to **1988** (often described as "over 30 years" in gate tech). Locinox supplies into **70+ countries**, positioning itself as a trendsetter in the fencing/gate world rather than a generic ironmongery line.
