Specification Summary

Brand	Lockey
Product type	Accessory

Product Description

The Lockey 2000 Easy Key Override Adaptor is a highly practical accessory designed to upgrade your Lockey 2000 Series digital locks with a key override facility. This adaptor is incredibly straightforward to install, fitting directly behind the digital keypad without requiring complex modifications or additional installation steps.

Constructed from durable aluminium with a sleek satin chrome finish, it is suitable for both internal and external door and gate applications. It features reversible handing to accommodate left- or right-handed doors. Please note that for doors or gates thicker than 45mm, an extension spindle is required (sold separately), and the digital lock itself is not included.

This adaptor is available in Keyed Alike or Keyed To Differ options, with manufacturer references LD2000KA and LD2000KD respectively. Please choose your preferred keying option, manufacturer reference, and barcode from the options below. Each unit is supplied complete with 3 keys.

Compatible Lockey Digital Locks:

- 2210
- 2430
- 2435

- 2430DS (double sided)
- 2835 (lever handle)
- 2835DS (double sided lever handle)

Brand Profile

Lockey

Lockey (often sold as **Lockey Digital** / **LockeyUSA™**) is a keyless-entry lock brand best known for **fully mechanical push-button combination locks** for **doors and gates**—the classic "no keys, no batteries, no wiring" approach that's popular for shared access, staff entrances, rental properties, and perimeter gates.

The brand story gets told slightly differently depending on region, but the consistent thread is this: **Lockey was one of the earliest "mechanical digital" (push-button) keyless lock systems**, with many trade listings calling it first introduced in **1970** and popularised with the rallying cry **"Change the code, not the lock!"**

What Lockey is known for (in the real world)

- **Mechanical keyless locks** (spring latch and deadbolt-style), designed to be **code changeable** without needing power.
- **Gate/perimeter hardware** in the same ecosystem (LockeyUSA's range is often presented alongside gate hardware like hydraulic closers and panic hardware).

UK vs North America branding / distribution

- In the UK, **Lockey Digital** is distributed by **Total Product Sales Ltd**, which says it was established in **1982** and founded by **John Fenton**, and that the Lockey Digital locks are **invented and manufactured in Japan** and distributed in the UK/worldwide since 1982.
- In North America, **LockeyUSA™** describes itself as the Lockey brand's North American business; one LockeyUSA page notes that **Doug Hill obtained exclusive North American import rights and founded LockeyUSA in 2001**.
- LockeyUSA was later acquired: **Nationwide Industries acquired LockeyUSA** (announcement dated **25 Feb 2021**), folding the brand into a broader gate-hardware portfolio.
