Specification Summary

Brand	Lockey
Product type	Gate Closer

Product Description

The Lockey GCTB175 Garden Gate Closer is a reliable, hydraulically controlled closer designed for flush-fitting timber and metal gates. Ideal for domestic garden gates, picket gates, barrier gates, and lightweight non-fire-rated doors, it provides a smooth, controlled closing action to prevent slamming and reduce wear on your gate hardware.

Constructed from robust steel with a durable black powder-coated finish, this gate closer is built to withstand outdoor conditions. It features fully adjustable travel and latching speeds, allowing you to customise the closing motion to suit your specific requirements. It also includes an optional hold-open function, which is perfect for when you need to keep the gate open for garden work or deliveries.

Designed for straightforward installation, the GCTB175 is supplied with comprehensive instructions. Please note that this closer is suitable for installations where the gate post or frame is flush with the gate, and the hinge point is on the corner of the post.

Technical Specifications

- **Brand:** Lockey
- **Manufacturer Reference:** GCTB175 (L29016)
- **Material:** Steel (Powder Coated)
- **Finish:** Black
- **Maximum Gate Weight:** 50kg
- **Maximum Gate Width:** 1000mm
- **Maximum Opening Angle:** 90°
- **Length:** 28.2cm
- **Width:** 45mm
- **Plate Height:** 63mm
- **Plate Width:** 45mm
- **Weight:** 978g
- **Hold Open:** Yes (Optional)
- **Suitable For:** Flush-fitting timber and metal gates

Brand Profile

Lockey

Lockey (often sold as **Lockey Digital** / **LockeyUSA™**) is a keyless-entry lock brand best known for **fully mechanical push-button combination locks** for **doors and gates**—the classic "no keys, no batteries, no wiring" approach that's popular for shared access, staff entrances, rental properties, and perimeter gates.

The brand story gets told slightly differently depending on region, but the consistent thread is this: **Lockey was one of the earliest "mechanical digital" (push-button) keyless lock systems**, with many trade listings calling it first introduced in **1970** and popularised with the rallying cry **"Change the code, not the lock!"**

What Lockey is known for (in the real world)

- **Mechanical keyless locks** (spring latch and deadbolt-style), designed to be **code changeable** without needing power.
- **Gate/perimeter hardware** in the same ecosystem (LockeyUSA's range is often presented alongside gate hardware like hydraulic closers and panic hardware).

UK vs North America branding / distribution

- In the UK, **Lockey Digital** is distributed by **Total Product Sales Ltd**, which says it was established in **1982** and founded by **John Fenton**, and that the Lockey Digital locks are **invented and manufactured in Japan** and distributed in the UK/worldwide since 1982.
- In North America, **LockeyUSA™** describes itself as the Lockey brand's North American business; one LockeyUSA page notes that **Doug Hill obtained exclusive North American import rights and founded LockeyUSA in 2001**.
- LockeyUSA was later acquired: **Nationwide Industries acquired LockeyUSA** (announcement dated **25 Feb 2021**), folding the brand into a broader gate-hardware portfolio.
