Brand	Lockey
Product type	Digital Locks

Product Description

The Lockey LC200 Mechanical Push Button Cabinet Lock offers a robust, keyless access control solution for lockers, cupboards, and cabinet doors. Designed for both commercial and domestic environments, it is ideal for securing gym lockers, staff storage, medicine cabinets, and office furniture.

This compact digital lock features a 10-button keypad supporting codes of 3 to 5 digits, providing over 1,000 possible combinations. For added peace of mind, it includes a key override function with two keys supplied, ensuring backup access if a code is forgotten.

The LC200 is fully reversible (non-handed) and suitable for doors ranging from 2mm to 45mm in thickness. It is supplied with both a straight cam and a cranked cam, allowing for flexible installation options to suit your specific cabinet setup. Finished in a stylish satin chrome, this durable lock comes with a limited lifetime guarantee.

Technical Specifications

- **Brand:** Lockey
- **Finish:** Satin Chrome
- **Door Thickness Suitability:** 2mm to 45mm
- **Backset:** 17.5mm
- **Case Depth Required:** 20mm

Brand Profile

Lockey

Lockey (often sold as **Lockey Digital** / **LockeyUSA™**) is a keyless-entry lock brand best known for **fully mechanical push-button combination locks** for **doors and gates**—the classic "no keys, no batteries, no wiring" approach that's popular for shared access, staff entrances, rental properties, and perimeter gates.

The brand story gets told slightly differently depending on region, but the consistent thread is this: **Lockey was one of the earliest "mechanical digital" (push-button) keyless lock systems**, with many trade listings calling it first introduced in **1970** and popularised with the rallying cry **"Change the code, not the lock!"**

What Lockey is known for (in the real world)

- **Mechanical keyless locks** (spring latch and deadbolt-style), designed to be **code changeable** without needing power.
- **Gate/perimeter hardware** in the same ecosystem (LockeyUSA's range is often presented alongside gate hardware like hydraulic closers and panic hardware).

UK vs North America branding / distribution

- In the UK, **Lockey Digital** is distributed by **Total Product Sales Ltd**, which says it was established in **1982** and founded by **John Fenton**, and that the Lockey Digital locks are **invented and manufactured in Japan** and distributed in the UK/worldwide since 1982.
- In North America, **LockeyUSA™** describes itself as the Lockey brand's North American business; one LockeyUSA page notes that **Doug Hill obtained exclusive North American import rights and founded LockeyUSA in 2001**.
- LockeyUSA was later acquired: **Nationwide Industries acquired LockeyUSA** (announcement dated **25 Feb 2021**), folding the brand into a broader gate-hardware portfolio.
