Brand	Lockey
Product type	Accessory

Product Description

The Lockey Combination Spine is a genuine replacement part designed specifically for Lockey mechanical digital locks. This essential internal component is responsible for housing the code tumblers, ensuring the smooth operation and reliable code-entry functionality of your digital keypad.

If your digital lock's keypad is experiencing issues with code entry or the internal mechanism has become worn over time, replacing the combination spine is a cost-effective way to restore your lock to full working order without needing to purchase a complete new unit.

This replacement spine is compatible with a wide range of popular Lockey models, including the 1150, 2210, 2430, and 2435 series. It is supplied as a single unit in loose packaging, ready for installation.

Technical Specifications

- **Brand:** Lockey
- **Manufacturer Reference:** SPINE
- **Part Number:** L5169
- **Weight:** 10g
- **Pack Quantity:** 1

- **Packaging:** Loose
- **Compatible Models:** Lockey 1150, 2210, 2430, and 2435

Brand Profile

Lockey

Lockey (often sold as **Lockey Digital** / **LockeyUSA™**) is a keyless-entry lock brand best known for **fully mechanical push-button combination locks** for **doors and gates**—the classic "no keys, no batteries, no wiring" approach that's popular for shared access, staff entrances, rental properties, and perimeter gates.

The brand story gets told slightly differently depending on region, but the consistent thread is this: **Lockey was one of the earliest "mechanical digital" (push-button) keyless lock systems**, with many trade listings calling it first introduced in **1970** and popularised with the rallying cry **"Change the code, not the lock!"**

What Lockey is known for (in the real world)

- **Mechanical keyless locks** (spring latch and deadbolt-style), designed to be **code changeable** without needing power.
- **Gate/perimeter hardware** in the same ecosystem (LockeyUSA's range is often presented alongside gate hardware like hydraulic closers and panic hardware).

UK vs North America branding / distribution

- In the UK, **Lockey Digital** is distributed by **Total Product Sales Ltd**, which says it was established in **1982** and founded by **John Fenton**, and that the Lockey Digital locks are **invented and manufactured in Japan** and distributed in the UK/worldwide since 1982.
- In North America, **LockeyUSA™** describes itself as the Lockey brand's North American business; one LockeyUSA page notes that **Doug Hill obtained exclusive North American import rights and founded LockeyUSA in 2001**.
- LockeyUSA was later acquired: **Nationwide Industries acquired LockeyUSA** (announcement dated **25 Feb 2021**), folding the brand into a broader gate-hardware portfolio.
