Specification Summary

Brand	Master Lock
Product type	Combination

Product Description

The Master Lock 4680 TSA Combination Luggage Padlock is the ideal security companion for international travel. Featuring a durable 30mm wide metal body and a robust steel shackle, this padlock provides reliable protection for your suitcases, briefcases, and travel bags.

As a TSA-certified lock, it is fully approved by the Transportation Security Administration. This allows airport security screeners to open, inspect, and safely relock your baggage without causing any damage to the lock or your luggage.

The padlock features a user-resettable 3-digit combination mechanism, offering up to 1,000 possible combinations for keyless convenience. It is available in multiple finishes and pack quantities; please choose your preferred options from the selection below.

Brand Profile

Master Lock

Master Lock is the classic American “padlock brand” - the one that’s been on job sites, school lockers, garage doors, and storage units for so long it’s basically part of the urban landscape. The company was founded in **1921** by locksmith-inventor **Harry Soref** in the Milwaukee area, built around his breakthrough **laminated steel padlock** design: strong, affordable, and mass-producible — the security industry’s equivalent of discovering fire, but with more rivets.

What they’re known for is broad “portable security” rather than door hardware:

- **Padlocks** (keyed, combination, weather-resistant, heavy-duty)
- **Lock boxes / key safes** (mechanical and Bluetooth variants for managed access)
- **Safes and security storage** (varies by market, often alongside their lockbox line)
- **Lockout/Tagout (LOTO)** safety products for industrial settings (a big part of their professional footprint)

Ownership / group: Master Lock is a subsidiary within **Fortune Brands Innovations**’ security portfolio (the same broader group that also houses other security brands).
