Specification Summary

Brand	Master Lock
Product type	Open Shackle

Product Description

The Master Lock 4681 KA Pair of TSA Luggage Locks is the ideal security companion for international travel. This twin pack features two 32mm wide padlocks that are keyed alike, meaning you can conveniently open both locks using the exact same key.

Each padlock is TSA (Transportation Security Administration) accepted, allowing airport security screeners to safely unlock, inspect, and relock your baggage without causing any damage to the lock or your luggage. Built with a solid metal body and a protective ABS vinyl cover, these padlocks are designed to resist scratches and withstand the rigours of transit. They feature a durable steel shackle, making them highly suitable for securing suitcases, briefcases, backpacks, and travel bags.

Please note: The colour of the protective vinyl cover may vary from the images shown.

Technical Specifications

- **Brand:** Master Lock
- **Model:** 4681 KA
- **Body Width:** 32mm
- **Body Material:** Solid metal with ABS vinyl protective cover

Brand Profile

Master Lock

Master Lock is the classic American “padlock brand” - the one that’s been on job sites, school lockers, garage doors, and storage units for so long it’s basically part of the urban landscape. The company was founded in **1921** by locksmith-inventor **Harry Soref** in the Milwaukee area, built around his breakthrough **laminated steel padlock** design: strong, affordable, and mass-producible — the security industry’s equivalent of discovering fire, but with more rivets.

What they’re known for is broad “portable security” rather than door hardware:

- **Padlocks** (keyed, combination, weather-resistant, heavy-duty)
- **Lock boxes / key safes** (mechanical and Bluetooth variants for managed access)
- **Safes and security storage** (varies by market, often alongside their lockbox line)
- **Lockout/Tagout (LOTO)** safety products for industrial settings (a big part of their professional footprint)

Ownership / group: Master Lock is a subsidiary within **Fortune Brands Innovations**’ security portfolio (the same broader group that also houses other security brands).
