Specification Summary

Brand	Master Lock
Product type	Combination

Product Description

The Master Lock 4685 Combination Luggage Padlock is a reliable and convenient security solution designed specifically for travellers. Featuring a durable 35mm wide body and a steel shackle, this padlock offers essential protection for suitcases, briefcases, and travel bags.

A standout feature of this padlock is its TSA (Transportation Security Administration) certification. This allows airport security screeners in the US and other international destinations to open, inspect, and relock your luggage without causing any damage to the lock itself.

For added convenience, the Master Lock 4685 features a built-in luggage label on the back, allowing you to easily personalise and identify your bags. The lock operates via a 3-digit resettable combination mechanism, providing 1,000 possible code variations and eliminating the need to carry keys while on the move.

Technical Specifications

- **Brand:** Master Lock
- **Body Width:** 35mm
- **Body Height:** 57mm
- **Shackle Diameter:** 3mm

Brand Profile

Master Lock

Master Lock is the classic American “padlock brand” - the one that’s been on job sites, school lockers, garage doors, and storage units for so long it’s basically part of the urban landscape. The company was founded in **1921** by locksmith-inventor **Harry Soref** in the Milwaukee area, built around his breakthrough **laminated steel padlock** design: strong, affordable, and mass-producible — the security industry’s equivalent of discovering fire, but with more rivets.

What they’re known for is broad “portable security” rather than door hardware:

- **Padlocks** (keyed, combination, weather-resistant, heavy-duty)
- **Lock boxes / key safes** (mechanical and Bluetooth variants for managed access)
- **Safes and security storage** (varies by market, often alongside their lockbox line)
- **Lockout/Tagout (LOTO)** safety products for industrial settings (a big part of their professional footprint)

Ownership / group: Master Lock is a subsidiary within **Fortune Brands Innovations**’ security portfolio (the same broader group that also houses other security brands).
