Specification Summary

Brand	Master Lock
Product type	Key Safe

Product Description

The Master Lock 5481EURD Wall Mount Select Access™ is a highly secure and convenient key safe designed to share keys, fobs, and access cards with trusted visitors, caretakers, or guests. Featuring a solid aluminium body, this key box offers robust resistance against tampering and physical attacks.

With a storage capacity up to 2.5 times larger than standard key safes, it can comfortably hold up to 10 keys, fobs, or access cards. The interior features an innovative built-in plastic bin that neatly secures your keys, preventing them from jamming the mechanism when closing the door.

Access is quick and easy via the 4-digit resettable combination lock. The large, high-contrast dials are widely spaced and easy to grip, making them simple to operate even with gloves on. Side grips allow for smooth, one-handed opening without the need for a traditional lever. To protect the dials from harsh weather, dirt, and grime, the key safe is fitted with a durable, flip-down weather cover.

Technical Specifications

- **Brand:** Master Lock
- **Model:** 5481EURD
- **Locking Mechanism:** 4-wheel resettable combination (10,000 possible codes)
- **Body Material:** Solid aluminium
- **External Dimensions:** 136mm (H) x 76mm (W) x 86mm (D)
- **Internal Dimensions:** 113mm (H) x 70mm (W) x 56mm (D)
- **Weight:** 551g
- **Finish:** Black & Grey
- **Mounting Type:** Wall-mounted (mounting hardware included)

Key Features

- **Generous Storage:** Holds up to 10 keys, fobs, or access cards (up to 2.5 times larger capacity than standard key safes)

Brand Profile

Master Lock

Master Lock is the classic American “padlock brand” - the one that’s been on job sites, school lockers, garage doors, and storage units for so long it’s basically part of the urban landscape. The company was founded in **1921** by locksmith-inventor **Harry Soref** in the Milwaukee area, built around his breakthrough **laminated steel padlock** design: strong, affordable, and mass-producible — the security industry’s equivalent of discovering fire, but with more rivets.

What they’re known for is broad “portable security” rather than door hardware:

- **Padlocks** (keyed, combination, weather-resistant, heavy-duty)
- **Lock boxes / key safes** (mechanical and Bluetooth variants for managed access)
- **Safes and security storage** (varies by market, often alongside their lockbox line)
- **Lockout/Tagout (LOTO)** safety products for industrial settings (a big part of their professional footprint)

Ownership / group: Master Lock is a subsidiary within **Fortune Brands Innovations**’ security portfolio (the same broader group that also houses other security brands).
