Specification Summary

Brand	Master Lock
Product type	Laminated

Product Description

The Master Lock 6121 & 6127 Pro-Series Laminated Padlocks are heavy-duty security solutions designed to withstand the harshest outdoor conditions and physical attacks. Featuring a high-security laminated steel body encased in an exclusive weather-resistant cover, these padlocks offer exceptional protection against corrosion, moisture, and dirt. They are ideal for securing high-risk areas such as garages, factory gates, commercial premises, and basement storage units.

Equipped with a tough boron alloy shackle, these padlocks provide superior resistance to cutting and sawing. Security is further enhanced by a dual ball-bearing locking mechanism that resists pulling and prying attacks. The high-security cylinder is designed to resist lockpicking and drilling, and it can be easily removed for rekeying or replacement.

These padlocks are available in multiple options to suit your security requirements. You can choose between different body widths (54mm or 67mm), weights (500g or 620g), and packaging styles (Boxed or Visi). Please select your preferred manufacturer reference (6121 or 6127) and specifications from the options below.

Technical Specifications

- **Brand:** Master Lock
- **Manufacturer Reference:** 6121 or 6127 (please choose from the options below)
- **Body Width:** 54mm or 67mm (please choose from the options below)
- **Weight:** 500g or 620g (please choose from the options below)
- **Shackle Material:** Boron alloy
- **Body Material:** Laminated steel with protective cover
- **Cylinder System:** Master Lock 5-pin
- **Mechanism:** 6-pin
- **Keying:** Keyed to differ (in-house key cutting available)
- **Finish:** Black
- **Packaging:** Boxed or Visi (please choose from the options below)

Key Features

- **Weatherproof Protection:** Exclusive outer cover shields the lock body and keyway from harsh weather, dirt, and moisture.
- **High Physical Strength:** Laminated steel body provides excellent resistance to physical attacks and abuse.
- **Cut-Resistant Shackle:** Tough boron alloy shackle offers superior protection against cutting and sawing.
- **Dual Ball Bearing Locking:** Resists pulling and prying forces for enhanced security.
- **Rekeyable Cylinder:** Removable cylinder can be replaced or re-pinned to match existing key systems.
- **Versatile Security:** Ideal for securing garages, industrial gates, commercial premises, and basement storage units.

Brand Profile

Master Lock

Master Lock is the classic American “padlock brand” - the one that’s been on job sites, school lockers, garage doors, and storage units for so long it’s basically part of the urban landscape. The company was founded in **1921** by locksmith-inventor **Harry Soref** in the Milwaukee area, built around his breakthrough **laminated steel padlock** design: strong, affordable, and mass-producible — the security industry’s equivalent of discovering fire, but with more rivets.

What they’re known for is broad “portable security” rather than door hardware:

- **Padlocks** (keyed, combination, weather-resistant, heavy-duty)
- **Lock boxes / key safes** (mechanical and Bluetooth variants for managed access)
- **Safes and security storage** (varies by market, often alongside their lockbox line)
- **Lockout/Tagout (LOTO)** safety products for industrial settings (a big part of their professional footprint)

Ownership / group: Master Lock is a subsidiary within **Fortune Brands Innovations**’ security portfolio (the same broader group that also houses other security brands).
