Brand	Master Lock
Product type	Combination

Product Description

The Master Lock 7641EURDBLK is a highly versatile 40mm combination padlock designed specifically for indoor security. Ideal for securing lockers, cupboards, cabinets, and toolboxes, this padlock offers a reliable keyless security solution with the added peace of mind of a physical key override.

Constructed with a durable 40mm solid zinc body in a sleek black finish, it features a 6mm diameter steel shackle that provides solid resistance against cutting and sawing. The 4-wheel combination mechanism allows you to set your own personalised 4-digit code, choosing from over 10,000 possible combinations for enhanced security.

What sets the Master Lock 7641 apart is its innovative override key facility. Supplied with two keys, this system not only grants instant backup access if you forget your code but also features a lost code decode function, allowing you to recover and reset your combination without having to discard the lock. It is the perfect choice for school, gym, or workplace lockers where code recovery is frequently required.

Technical Specifications

Brand Profile

Master Lock

Master Lock is the classic American “padlock brand” - the one that’s been on job sites, school lockers, garage doors, and storage units for so long it’s basically part of the urban landscape. The company was founded in **1921** by locksmith-inventor **Harry Soref** in the Milwaukee area, built around his breakthrough **laminated steel padlock** design: strong, affordable, and mass-producible — the security industry’s equivalent of discovering fire, but with more rivets.

What they’re known for is broad “portable security” rather than door hardware:

- **Padlocks** (keyed, combination, weather-resistant, heavy-duty)
- **Lock boxes / key safes** (mechanical and Bluetooth variants for managed access)
- **Safes and security storage** (varies by market, often alongside their lockbox line)
- **Lockout/Tagout (LOTO)** safety products for industrial settings (a big part of their professional footprint)

Ownership / group: Master Lock is a subsidiary within **Fortune Brands Innovations**’ security portfolio (the same broader group that also houses other security brands).
