Brand	Master Lock
Product type	Hasp & Staple

Product Description

The Master Lock - American Lock 800 LHC Padlock & Hasp is a heavy-duty, high-security locking bundle designed to provide maximum protection for vulnerable doors. Ideal for securing vans, trailers, garages, storage units, and vending machines, this robust set combines a solid steel hasp with a hidden shackle padlock.

By completely enclosing the padlock within the protective shroud of the steel hasp, the hidden shackle design eliminates exposed areas. This provides exceptional resistance against forced entry attempts, including cutting, sawing, and prying. Manufactured by American Lock, a specialist division of the Master Lock Company, this bundle is built to withstand harsh outdoor conditions and heavy-duty use.

The kit comes complete with the high-security hasp, matching hidden shackle padlock, and two keys, offering an all-in-one security solution for sliding or swinging doors.

Technical Specifications

- **Brand:** Master Lock
- **Manufacturer Reference:** 800LHC (Part Number: L11814)
- **Length:** 230mm (23cm)
- **Width:** 114mm (11.4cm)
- **Finish:** Silver
- **Weight:** 2.152kg
- **Keys Supplied:** 2
- **Barcode:** 037325012838

Key Features

- **Hidden Shackle Design:** The padlock is fully enclosed within the hasp shroud, protecting it from cutting, sawing, and prying.
- **All-in-One Bundle:** Contains both the heavy-duty steel hasp and the hidden shackle padlock.
- **Versatile Application:** Ideal for securing sliding and swinging doors on vans, trailers, garages, and storage buildings.
- **Trusted Brand:** Manufactured by American Lock, a division of the Master Lock Company.

Brand Profile

Master Lock

Master Lock is the classic American “padlock brand” - the one that’s been on job sites, school lockers, garage doors, and storage units for so long it’s basically part of the urban landscape. The company was founded in **1921** by locksmith-inventor **Harry Soref** in the Milwaukee area, built around his breakthrough **laminated steel padlock** design: strong, affordable, and mass-producible — the security industry’s equivalent of discovering fire, but with more rivets.

What they’re known for is broad “portable security” rather than door hardware:

- **Padlocks** (keyed, combination, weather-resistant, heavy-duty)
- **Lock boxes / key safes** (mechanical and Bluetooth variants for managed access)
- **Safes and security storage** (varies by market, often alongside their lockbox line)
- **Lockout/Tagout (LOTO)** safety products for industrial settings (a big part of their professional footprint)

Ownership / group: Master Lock is a subsidiary within **Fortune Brands Innovations**’ security portfolio (the same broader group that also houses other security brands).
