Brand	Master Lock
Product type	Hasp & Staple

Product Description

The Master Lock - American Lock A800 High Security Hasp is a heavy-duty steel hasp designed specifically for use with hidden shackle padlocks (often referred to as puck locks). Constructed from robust cast steel, this hasp provides maximum strength and exceptional resistance against cutting, sawing, and hammering attacks.

This high-security hasp is ideal for securing both sliding and swinging doors. It is widely used on commercial vehicles, vans, trailers, garages, storage units, industrial buildings, and vending machines. By allowing a hidden shackle padlock to attach directly to the hasp, it completely shrouds the padlock shackle to protect it from physical tampering and bolt cutters.

Please note that this product includes the hasp only; the padlock is sold separately. It is compatible with American Lock A2000, A2001, A2010, and A2500 series hidden shackle padlocks, as well as other standard puck locks.

Technical Specifications

- **Brand:** Master Lock (American Lock division)
- **Model:** A800

- **Material:** Cast steel
- **Finish:** Silver
- **Length:** 230mm (9-1/16")
- **Height:** 114mm (4-1/2")
- **Weight:** 1.34kg
- **Maximum Shackle Diameter:** Accepts shackles up to 14mm (9/16")
- **Compatibility:** Designed for use with American Lock A2000, A2001, A2010, and A2500 hidden shackle padlocks (sold separately)
- **Pack Quantity:** 1

Key Features

- **Hidden Shackle Design:** Designed so that a hidden shackle padlock attaches directly to the hasp, completely protecting the shackle from attack.
- **Heavy-Duty Construction:** Made from solid cast steel for maximum strength, durability, and resistance to cutting, sawing, and hammering.
- **Versatile Security:** Ideal for securing sliding and swinging doors on commercial vehicles, vans, trailers, garages, and vending machines.
- **Weather Resistant:** Silver finish provides enhanced corrosion resistance for outdoor applications.

Brand Profile

Master Lock

Master Lock is the classic American “padlock brand” - the one that’s been on job sites, school lockers, garage doors, and storage units for so long it’s basically part of the urban landscape. The company was founded in **1921** by locksmith-inventor **Harry Soref** in the Milwaukee area, built around his breakthrough **laminated steel padlock** design: strong, affordable, and mass-producible — the security industry’s equivalent of discovering fire, but with more rivets.

What they’re known for is broad “portable security” rather than door hardware:

- **Padlocks** (keyed, combination, weather-resistant, heavy-duty)
- **Lock boxes / key safes** (mechanical and Bluetooth variants for managed access)
- **Safes and security storage** (varies by market, often alongside their lockbox line)
- **Lockout/Tagout (LOTO)** safety products for industrial settings (a big part of their professional footprint)

Ownership / group: Master Lock is a subsidiary within **Fortune Brands Innovations**’ security portfolio (the same broader group that also houses other security brands).
