Specification Summary

Brand	Master Lock
Product type	Hasp & Staple

Product Description

The Master Lock - American Lock A801 High Security Hasp is a heavy-duty, solid steel hasp designed specifically for use with hidden shackle padlocks. By allowing the padlock to attach directly to the hasp, this system completely encloses the lock's shackle, protecting it from direct physical attacks, prying, and bolt cutters.

Engineered for maximum strength and durability, the A801 is particularly suited for securing sliding and swinging doors on commercial vehicles, garages, warehouses, storage buildings, and industrial premises. It is designed to fit rear van doors and works seamlessly with American Lock A2000, A2001, A2010, and A2500 series hidden shackle

padlocks, as well as the Master Lock 6271.

Please note that this product is a surface-mounted hasp only and does not include a padlock or mounting bolts.

Technical Specifications

- **Brand:** Master Lock (American Lock division)
- **Model Reference:** A801
- **Material:** Solid steel
- **Length:** 222mm (8-3/4")
- **Height:** 114mm (4-1/2")
- **Weight:** 1.34kg
- **Fitting:** Surface mounted (requires six 3/8" carriage bolts, not included)
- **Maximum Shackle Diameter:** Accepts shackles up to 14mm (9/16")
- **Compatibility:** Designed for use with American Lock A2000, A2001, A2010, and A2500 series, and Master Lock 6271 hidden shackle padlocks

Key Features

- **Maximum Protection:** Shrouded design completely encloses the padlock shackle to prevent prying, cutting, and cropping attacks.
- **Heavy-Duty Construction:** Made from solid steel for exceptional strength and long-lasting durability.
- **Versatile Security:** Ideal for securing sliding and swinging doors on rear van doors, garages, storage units, and commercial buildings.
- **Direct Attachment:** Padlock fastens directly to the hasp for maximum security and user convenience.

Brand Profile

Master Lock

Master Lock is the classic American “padlock brand” - the one that’s been on job sites, school lockers, garage doors, and storage units for so long it’s basically part of the urban landscape. The company was founded in **1921** by locksmith-inventor **Harry Soref** in the Milwaukee area, built around his breakthrough **laminated steel padlock** design: strong, affordable, and mass-producible — the security industry’s equivalent of discovering fire, but with more rivets.

What they’re known for is broad “portable security” rather than door hardware:

- **Padlocks** (keyed, combination, weather-resistant, heavy-duty)
- **Lock boxes / key safes** (mechanical and Bluetooth variants for managed access)
- **Safes and security storage** (varies by market, often alongside their lockbox line)
- **Lockout/Tagout (LOTO)** safety products for industrial settings (a big part of their professional footprint)

Ownership / group: Master Lock is a subsidiary within **Fortune Brands Innovations**’ security portfolio (the same broader group that also houses other security brands).
