Specification Summary

Brand	Master Lock
Product type	Hasp & Staple

Product Description

The Master Lock American Lock A802 High Security Hasp is a heavy-duty steel security solution designed specifically for use with hidden shackle padlocks. Constructed from high-strength steel, this hasp offers maximum durability and exceptional resistance against physical attacks, including cutting, sawing, and hammering.

This high-security hasp is engineered so that compatible hidden shackle padlocks can be attached directly to the body, providing a seamless, shrouded, and highly secure locking mechanism. It is particularly suited for securing sliding and swinging doors on commercial vehicles, garages, storage facilities, industrial plants, and vending

machines. Additionally, the A802 is specifically designed to secure overlapping trailer rear doors with a raised lip or seal, making it an ideal choice for transit and fleet security.

Please note that this product includes the hasp only; the padlock is sold separately.

Technical Specifications

- **Brand:** Master Lock (American Lock division)
- **Model:** A802
- **Material:** Hardened steel
- **Fitting:** Surface mounted
- **Width:** 291mm (29.1cm)
- **Height:** 114mm (11.4cm)
- **Weight:** 1.67kg
- **Compatibility:** Designed for use with hidden shackle padlocks (such as American Lock A2000, A2001, A2010, and A2500)
- **Suitability:** Rear doors offset (overlapping doors with a raised lip or seal)

Key Features

- **Maximum Strength:** Heavy-duty steel construction provides exceptional resistance against cutting, sawing, and hammering.
- **Direct Attachment:** Designed so hidden shackle padlocks can mount directly to the hasp for maximum security and convenience.
- **Overlapping Door Security:** Specially engineered to secure overlapping trailer doors with a raised lip or seal.
- **Versatile Application:** Ideal for securing sliding or swinging doors on vans, trucks, garages, warehouses, and vending machines.
- **Weather Resistant:** Zinc-plated finish offers excellent durability and protection against harsh weather conditions.

Brand Profile

Master Lock

Master Lock is the classic American “padlock brand” - the one that’s been on job sites, school lockers, garage doors, and storage units for so long it’s basically part of the urban landscape. The company was founded in **1921** by locksmith-inventor **Harry Soref** in the Milwaukee area, built around his breakthrough **laminated steel padlock** design: strong, affordable, and mass-producible — the security industry’s equivalent of discovering fire, but with more rivets.

What they’re known for is broad “portable security” rather than door hardware:

- **Padlocks** (keyed, combination, weather-resistant, heavy-duty)
- **Lock boxes / key safes** (mechanical and Bluetooth variants for managed access)
- **Safes and security storage** (varies by market, often alongside their lockbox line)
- **Lockout/Tagout (LOTO)** safety products for industrial settings (a big part of their professional footprint)

Ownership / group: Master Lock is a subsidiary within **Fortune Brands Innovations**’ security portfolio (the same broader group that also houses other security brands).
