Specification Summary

Brand	Master Lock
Product type	Accessory

Product Description

The Master Lock Carabiner Bowl is a highly practical bulk pack containing 100 non-locking carabiner hooks. Each 76mm carabiner is manufactured from solid die-cast zinc, offering a more robust and durable alternative to standard aluminium clips.

These lightweight and easy-to-carry hooks are supplied in an assortment of vibrant, metallic colours, including green, red, blue, and purple. They are perfect for organising and securing keys, small tools, backpacks, and sporting gear.

Please note that these carabiners are designed for accessory use only and are not suitable for climbing.

Brand Profile

Master Lock

Master Lock is the classic American “padlock brand” - the one that’s been on job sites, school lockers, garage doors, and storage units for so long it’s basically part of the urban landscape. The company was founded in **1921** by locksmith-inventor **Harry Soref** in the Milwaukee area, built around his breakthrough **laminated steel padlock** design: strong, affordable, and mass-producible — the security industry’s equivalent of discovering fire, but with more rivets.

What they’re known for is broad “portable security” rather than door hardware:

- **Padlocks** (keyed, combination, weather-resistant, heavy-duty)
- **Lock boxes / key safes** (mechanical and Bluetooth variants for managed access)
- **Safes and security storage** (varies by market, often alongside their lockbox line)
- **Lockout/Tagout (LOTO)** safety products for industrial settings (a big part of their professional footprint)

Ownership / group: Master Lock is a subsidiary within **Fortune Brands Innovations**’ security portfolio (the same broader group that also houses other security brands).
