Specification Summary

Brand	Master Lock
Product type	Combination

Product Description

The Master Lock Excell M176EURDLH Combination Padlock with Backup Key offers a highly secure and flexible locking solution, combining the convenience of a keyless combination lock with the reassurance of a physical key override. Built with a robust 56mm wide zinc body and a protective dial cover, this padlock is designed to withstand the elements, making it ideal for outdoor applications such as securing gates, sheds, and job sites.

At the core of its security is a 9mm octagonal boron-carbide shackle, which is 50% harder than standard hardened steel, providing exceptional resistance to cutting and sawing. The padlock features a user-resettable 4-digit combination dial, offering up to 10,000 possible combinations. For added peace of mind, it includes a backup key override system, allowing you to open the lock even if the combination is forgotten.

Technical Specifications

- **Body Width:** 56mm
- **Shackle Diameter:** 9mm
- **Vertical Clearance:** 51mm
- **Horizontal Clearance:** 24mm

- **Body Material:** Zinc
- **Shackle Material:** Boron-carbide
- **Code Length:** 4 Digits
- **Keys Supplied:** 2
- **Manufacturer Reference:** M176EURDLH

Key Features

- **Dual Entry Convenience:** Operates via a 4-digit combination or the included backup keys.
- **Boron-Carbide Shackle:** 9mm octagonal shackle is 50% harder than hardened steel for maximum cut and saw resistance.
- **Weather Resistant:** Zinc body with covered dials protects the mechanism against harsh outdoor conditions.
- **High Security Combination:** Set-your-own 4-digit code with 10,000 possible combinations.
- **Scratch Protection:** Reinforced body bumper prevents scratching on secured surfaces.

Brand Profile

Master Lock

Master Lock is the classic American “padlock brand” - the one that’s been on job sites, school lockers, garage doors, and storage units for so long it’s basically part of the urban landscape. The company was founded in **1921** by locksmith-inventor **Harry Soref** in the Milwaukee area, built around his breakthrough **laminated steel padlock** design: strong, affordable, and mass-producible — the security industry’s equivalent of discovering fire, but with more rivets.

What they’re known for is broad “portable security” rather than door hardware:

- **Padlocks** (keyed, combination, weather-resistant, heavy-duty)
- **Lock boxes / key safes** (mechanical and Bluetooth variants for managed access)
- **Safes and security storage** (varies by market, often alongside their lockbox line)
- **Lockout/Tagout (LOTO)** safety products for industrial settings (a big part of their professional footprint)

Ownership / group: Master Lock is a subsidiary within **Fortune Brands Innovations**’ security portfolio (the same broader group that also houses other security brands).
