Specification Summary

Brand	Master Lock
Product type	Discus

Product Description

The Master Lock Excell Discus Combination Padlock (M40EURDNUM) offers high-security protection combined with keyless convenience. Designed with a robust 70mm stainless steel body, this padlock provides exceptional strength, reliability, and maximum resistance against harsh weather conditions, making it ideal for outdoor use on gates, sheds, garages, and storage units.

At the core of its security is a patented octagonal boron-carbide shackle, which is 50% harder to cut than standard hardened steel. This is paired with a fully shrouded discus design that minimises shackle exposure, offering superior protection against bolt cutters, sawing, and prying attacks.

For keyless convenience, the padlock features a set-your-own 4-digit combination lock, offering up to 10,000 possible combinations. A dedicated reset tool is included to easily change the code whenever required. Additionally, a reinforced body bumper is integrated to protect surrounding surfaces from scratches.

Technical Specifications

- **Body Width:** 70mm
- **Shackle Diameter:** 9mm
- **Vertical Clearance:** 16mm

- **Horizontal Clearance:** 24mm
- **Body Material:** Stainless Steel
- **Shackle Material:** Boron Carbide
- **Code Length:** 4 Digits (resettable)
- **Finish:** Silver
- **Weight:** 320g

Key Features

- Fully shrouded discus design protects against bolt cutter and prying attacks
- Tough-Cut™ octagonal boron-carbide shackle is 50% harder than hardened steel
- Stainless steel body construction provides maximum weather and corrosion resistance
- Set-your-own 4-digit combination with 10,000 possible combinations for keyless convenience
- Reset tool included for quick and easy code changes
- Integrated body bumper protects surfaces from scratches

Brand Profile

Master Lock

Master Lock is the classic American “padlock brand” - the one that’s been on job sites, school lockers, garage doors, and storage units for so long it’s basically part of the urban landscape. The company was founded in **1921** by locksmith-inventor **Harry Soref** in the Milwaukee area, built around his breakthrough **laminated steel padlock** design: strong, affordable, and mass-producible — the security industry’s equivalent of discovering fire, but with more rivets.

What they’re known for is broad “portable security” rather than door hardware:

- **Padlocks** (keyed, combination, weather-resistant, heavy-duty)
- **Lock boxes / key safes** (mechanical and Bluetooth variants for managed access)
- **Safes and security storage** (varies by market, often alongside their lockbox line)
- **Lockout/Tagout (LOTO)** safety products for industrial settings (a big part of their professional footprint)

Ownership / group: Master Lock is a subsidiary within **Fortune Brands Innovations**’ security portfolio (the same broader group that also houses other security brands).
