Specification Summary

Brand	Master Lock
Product type	Open Shackle

Product Description

The MASTER LOCK Excell Marine Open Shackle Padlock is designed to offer exceptional weather resistance and robust security, making it ideal for marine environments, boats, sheds, and outdoor gates. It features a heavy-duty laminated steel body encased in a grade 304 stainless steel cover, with stainless steel top and bottom plates to ensure superior strength and corrosion resistance.

For maximum cut resistance, the padlock is equipped with an octagonal chrome-plated boron carbide shackle, which is 50% harder than standard hardened steel. Security is further enhanced by a dual ball bearing locking mechanism that provides excellent resistance against prying and hammering, alongside a 4-pin cylinder to prevent

picking. Supplied with 4 keys, this padlock is highly convenient for multiple users.

This padlock is available in multiple body widths, shackle diameters, and clearances to suit your specific security needs. Please choose your preferred size and specification from the options below.

Technical Specifications

- **Body Width:** 44mm or 51mm (please choose from the options below)
- **Shackle Diameter:** 8mm or 10mm (please choose from the options below)
- **Vertical Clearance:** 25mm or 38mm (please choose from the options below)
- **Horizontal Clearance:** 20mm or 24mm (please choose from the options below)
- **Material:** Laminated steel core with grade 304 stainless steel cover
- **Shackle Material:** Chrome-plated boron carbide (octagonal)
- **Locking Mechanism:** Dual ball bearing
- **Cylinder:** 4-pin
- **Keys Supplied:** 4
- **Weight:** 250g or 275g (please choose from the options below)
- **Manufacturer Reference:** M1EURDLFSTSCC or M5EURDSTSCC (please choose from the options below)
- **Barcode:** 3520190944641 or 3520190944658 (please choose from the options below)

Key Features

- **Superior Weatherability:** Laminated steel body encased in a grade 304 stainless steel cover with stainless steel top and bottom plates, ideal for marine and outdoor environments.
- **Tough-Cut Shackle:** Octagonal boron carbide shackle is 50% harder than hardened steel, offering maximum resistance to cutting and sawing.
- **Pry Resistant:** Dual ball bearing locking mechanism provides maximum resistance against prying and hammering.
- **Pick Resistant:** 4-pin cylinder helps prevent picking.
- **Multiple Keys:** Supplied with 4 keys, making it ideal for shared access and multiple users.

Brand Profile

Master Lock

Master Lock is the classic American “padlock brand” - the one that’s been on job sites, school lockers, garage doors, and storage units for so long it’s basically part of the urban landscape. The company was founded in **1921** by locksmith-inventor **Harry Soref** in the Milwaukee area, built around his breakthrough **laminated steel padlock** design: strong, affordable, and mass-producible — the security industry’s equivalent of discovering fire, but with more rivets.

What they’re known for is broad “portable security” rather than door hardware:

- **Padlocks** (keyed, combination, weather-resistant, heavy-duty)
- **Lock boxes / key safes** (mechanical and Bluetooth variants for managed access)
- **Safes and security storage** (varies by market, often alongside their lockbox line)
- **Lockout/Tagout (LOTO)** safety products for industrial settings (a big part of their professional footprint)

Ownership / group: Master Lock is a subsidiary within **Fortune Brands Innovations**’ security portfolio (the same broader group that also houses other security brands).
