Specification Summary

Brand	Master Lock
Product type	Combination

Product Description

The Master Lock M175EUR series padlocks are high-security combination locks designed to withstand harsh outdoor conditions and physical attacks. Featuring a tough boron alloy shackle, this padlock is up to 50% stronger than standard padlocks, offering exceptional resistance to cutting and sawing.

The 50mm zinc die-cast body is chrome-plated for superior corrosion resistance, while the dials are covered by a weather-resistant dust cap to protect the mechanism from dirt, moisture, and debris. For added security, the double deadbolt locking mechanism provides robust protection against prying and hammering.

With a resettable 4-digit combination, you can easily set and reset your own code without the need for keys. This padlock is highly versatile and ideal for securing factory fences, sheds, storefront gates, and other outdoor areas.

This padlock is available in multiple configurations with different vertical clearances, weights, barcodes, and manufacturer references. Please choose your preferred option from the selection below.

Technical Specifications

- **Body Width:** 50mm
- **Body Material:** Zinc Die Cast
- **Shackle Diameter:** 9mm
- **Shackle Finish:** Boron Alloy Steel
- **Horizontal Clearance:** 24mm
- **Vertical Clearance:** 38mm or 51mm (please choose from the options below)
- **Mechanism:** Combination (4 Wheel)
- **Resettable:** Yes
- **Weight:** 340g or 400g (please choose from the options below)
- **Manufacturer Reference:** M175EURDLF or M175EURDLH (please choose from the options below)
- **Barcode:** 3520190942456 or 3520190942463 (please choose from the options below)
- **Pack Quantity:** 1

Key Features

- **High-Security Boron Shackle:** Made from tough boron alloy steel, offering up to 50% more strength than standard padlocks.
- **Double Deadbolt Locking:** Provides extra protection against prying, hammering, and physical abuse.

Brand Profile

Master Lock

Master Lock is the classic American “padlock brand” - the one that’s been on job sites, school lockers, garage doors, and storage units for so long it’s basically part of the urban landscape. The company was founded in **1921** by locksmith-inventor **Harry Soref** in the Milwaukee area, built around his breakthrough **laminated steel padlock** design: strong, affordable, and mass-producible — the security industry’s equivalent of discovering fire, but with more rivets.

What they’re known for is broad “portable security” rather than door hardware:

- **Padlocks** (keyed, combination, weather-resistant, heavy-duty)
- **Lock boxes / key safes** (mechanical and Bluetooth variants for managed access)
- **Safes and security storage** (varies by market, often alongside their lockbox line)
- **Lockout/Tagout (LOTO)** safety products for industrial settings (a big part of their professional footprint)

Ownership / group: Master Lock is a subsidiary within **Fortune Brands Innovations**’ security portfolio (the same broader group that also houses other security brands).
