Specification Summary

Brand	Master Lock
Product type	Laminated

Product Description

The Master Lock Open Shackle Unassembled Laminated Padlock is designed for quick and convenient keying. These "Universal Pin" (UP) padlocks are supplied unassembled, allowing them to be pinned on-site to match a customer's existing key in minutes. This makes them an ideal choice for locksmiths, commercial users, and anyone looking to expand an existing keyed-alike suite without waiting for custom factory orders.

Constructed with a tough laminated steel body, these padlocks offer dependable protection against physical abuse and theft, making them highly suitable for securing sheds, residential gates, and basement storage units. They feature a protective bumper to prevent scratching on surrounding surfaces, and a 4-pin tumbler cylinder to help resist picking.

These padlocks are available in a range of body widths from 44mm to 54mm, with weights ranging from 180g to 380g. You can also choose between standard and long shackle variants to suit your specific application. Please select your required body width, shackle length, weight, and manufacturer reference from the options below.

Brand Profile

Master Lock

Master Lock is the classic American “padlock brand” - the one that’s been on job sites, school lockers, garage doors, and storage units for so long it’s basically part of the urban landscape. The company was founded in **1921** by locksmith-inventor **Harry Soref** in the Milwaukee area, built around his breakthrough **laminated steel padlock** design: strong, affordable, and mass-producible — the security industry’s equivalent of discovering fire, but with more rivets.

What they’re known for is broad “portable security” rather than door hardware:

- **Padlocks** (keyed, combination, weather-resistant, heavy-duty)
- **Lock boxes / key safes** (mechanical and Bluetooth variants for managed access)
- **Safes and security storage** (varies by market, often alongside their lockbox line)
- **Lockout/Tagout (LOTO)** safety products for industrial settings (a big part of their professional footprint)

Ownership / group: Master Lock is a subsidiary within **Fortune Brands Innovations**’ security portfolio (the same broader group that also houses other security brands).
