Specification Summary

Brand	Master Lock
Product type	Open Shackle

Product Description

The Master Lock Pro Series 6230 Open Shackle Padlock is a heavy-duty, high-security padlock designed specifically for demanding commercial and industrial applications. It features a robust 64mm wide solid steel body with chrome rustproofing, ensuring exceptional durability and a long service life even in harsh environments.

At the core of its physical security is a hardened boron alloy shackle that provides superior resistance against cutting and sawing. Security is further enhanced by a dual ball bearing locking mechanism, which effectively resists pulling and prying attacks.

The padlock is equipped with a high-security, rekeyable 5-pin cylinder featuring spool pins, making it highly resistant to picking. This rekeyable design allows locksmiths to easily service, rekey, or integrate the padlock into existing key suites. Supplied keyed to differ with two keys, this padlock is an ideal choice for securing construction sites, industrial equipment, storefront gates, and commercial vehicles.

Technical Specifications

- **Brand:** Master Lock
- **Manufacturer Reference:** 6230 (5 Pin)
- **Body Width:** 64mm
- **Shackle Diameter:** 11mm
- **Vertical Clearance:** 29mm
- **Horizontal Clearance:** 22mm
- **Body Material:** Solid Steel
- **Shackle Material:** Hardened Boron Alloy
- **Finish:** Chrome Plated
- **Mechanism:** 5 Pin
- **Keying:** Keyed To Differ
- **Keys Supplied:** 2
- **Weight:** 660g

Key Features

- **Industrial Strength:** Designed specifically for commercial and industrial applications.
- **Corrosion Resistant:** Solid steel body with chrome rustproofing for a long lifespan.
- **Cut Resistant:** Hardened boron alloy shackle provides superior resistance to cutting and sawing.
- **Pick Resistant:** High-security, rekeyable 5-pin cylinder with spool pins resists picking.
- **Pry Resistant:** Dual ball bearing locking mechanism resists pulling and prying attacks.
- **Serviceable Design:** Rekeyable cylinder allows for easy maintenance and key integration.

Brand Profile

Master Lock

Master Lock is the classic American “padlock brand” - the one that’s been on job sites, school lockers, garage doors, and storage units for so long it’s basically part of the urban landscape. The company was founded in **1921** by locksmith-inventor **Harry Soref** in the Milwaukee area, built around his breakthrough **laminated steel padlock** design: strong, affordable, and mass-producible — the security industry’s equivalent of discovering fire, but with more rivets.

What they’re known for is broad “portable security” rather than door hardware:

- **Padlocks** (keyed, combination, weather-resistant, heavy-duty)
- **Lock boxes / key safes** (mechanical and Bluetooth variants for managed access)
- **Safes and security storage** (varies by market, often alongside their lockbox line)
- **Lockout/Tagout (LOTO)** safety products for industrial settings (a big part of their professional footprint)

Ownership / group: Master Lock is a subsidiary within **Fortune Brands Innovations**’ security portfolio (the same broader group that also houses other security brands).
