Specification Summary

Brand	Master Lock
Product type	Combination

Product Description

The Master Lock 1175D ProSeries® resettable combination padlock is engineered to deliver high-security protection for demanding commercial and industrial applications. Featuring a robust 57mm wide solid brass body, this padlock offers outstanding corrosion resistance, making it an excellent choice for outdoor environments such as utility meters, substations, and security gates.

At its core, the padlock is built for attack resistance. It features a 10mm octagonal boron-carbide shackle that provides superior resistance to cutting and sawing. Security is further enhanced by a deadlocking mechanism

designed to defend against prying, shimming, and rap attacks.

For maximum convenience, the 4-digit combination mechanism offers 10,000 possible codes and can be fully reset without the need for a specialist reset tool. The innovative blind dial feature allows users to easily operate the lock in low light, complete darkness, or while wearing gloves. Additionally, an integrated shackle seal and dial dust cover protect the internal components from dirt and moisture, ensuring smooth, long-lasting operation.

Technical Specifications

- **Body Width:** 57mm
- **Body Material:** Solid Brass
- **Shackle Diameter:** 10mm
- **Shackle Material:** Octagonal Boron Carbide
- **Shackle Type:** Open Shackle
- **Vertical Clearance:** 27mm
- **Horizontal Clearance:** 24mm
- **Locking Mechanism:** 4-Wheel Combination
- **Weight:** 395g

Key Features

- **ProSeries® Commercial Grade:** Designed specifically for heavy-duty industrial and commercial use.
- **Corrosion-Resistant Brass Body:** Solid brass construction provides excellent weather protection.
- **Cut-Resistant Shackle:** Octagonal boron-carbide shackle offers ultimate resistance to cutting and sawing.
- **Tool-Free Reset:** Easily change the 4-digit combination without requiring any special reset tools.
- **Blind Dial Operation:** Ergonomic dials designed to stop at zero, allowing easy operation in the dark or with gloves.
- **Attack-Resistant Deadlock:** Deadlocking mechanism protects against prying, shimming, and rap attacks.
- **Weather Protection:** Shackle seal and dial dust cover shield internal components from dirt and moisture.

Brand Profile

Master Lock

Master Lock is the classic American “padlock brand” - the one that’s been on job sites, school lockers, garage doors, and storage units for so long it’s basically part of the urban landscape. The company was founded in **1921** by locksmith-inventor **Harry Soref** in the Milwaukee area, built around his breakthrough **laminated steel padlock** design: strong, affordable, and mass-producible — the security industry’s equivalent of discovering fire, but with more rivets.

What they’re known for is broad “portable security” rather than door hardware:

- **Padlocks** (keyed, combination, weather-resistant, heavy-duty)
- **Lock boxes / key safes** (mechanical and Bluetooth variants for managed access)
- **Safes and security storage** (varies by market, often alongside their lockbox line)
- **Lockout/Tagout (LOTO)** safety products for industrial settings (a big part of their professional footprint)

Ownership / group: Master Lock is a subsidiary within **Fortune Brands Innovations**’ security portfolio (the same broader group that also houses other security brands).
