Specification Summary

Brand	Master Lock
Product type	Combination

Product Description

The Master Lock ProSeries 1175DLH is a heavy-duty, resettable long shackle combination padlock engineered specifically for demanding commercial and industrial environments. Featuring a robust 57mm wide solid brass body, this padlock provides exceptional corrosion resistance, making it ideal for outdoor and harsh weather applications.

Security is enhanced by a 10mm diameter stainless steel shackle with a generous 53mm vertical clearance, allowing for versatile locking options on gates, chains, and larger fixtures. The padlock utilizes a deadlocking mechanism to resist prying, shimming, and physical attacks.

User convenience is at the forefront of the design, featuring a 4-digit resettable combination mechanism that offers up to 10,000 possible combinations. Crucially, no reset tool is required to change the code, preventing the hassle of misplaced tools. The blind dial feature allows for easy operation in low light or while wearing gloves, while a shackle seal and dial dust cover protect the internal components from dirt and moisture ingress.

Technical Specifications

- **Body Width:** 57mm
- **Body Material:** Brass
- **Shackle Diameter:** 10mm
- **Shackle Finish:** Stainless Steel
- **Vertical Clearance:** 53mm
- **Horizontal Clearance:** 24mm
- **Mechanism:** 4-wheel combination (10,000+ combinations)
- **Resettable:** Yes (no reset tool required)
- **Weight:** 424g

Key Features

- **Commercial Grade:** Part of the Master Lock ProSeries® range, designed for industrial and commercial applications.
- **Corrosion Resistant:** Solid brass body offers excellent weather resistance.
- **Attack Resistant:** Integrated deadlocking mechanism protects against prying and shimming.
- **Weather Protection:** Shackle seal and dial dust cover safeguard internal components from dirt and moisture.
- **Easy Operation:** Blind dial feature enables quick and easy operation in the dark or while wearing gloves.
- **Long Shackle:** 53mm vertical clearance provides extra flexibility for securing larger items.

Brand Profile

Master Lock

Master Lock is the classic American “padlock brand” - the one that’s been on job sites, school lockers, garage doors, and storage units for so long it’s basically part of the urban landscape. The company was founded in **1921** by locksmith-inventor **Harry Soref** in the Milwaukee area, built around his breakthrough **laminated steel padlock** design: strong, affordable, and mass-producible — the security industry’s equivalent of discovering fire, but with more rivets.

What they’re known for is broad “portable security” rather than door hardware:

- **Padlocks** (keyed, combination, weather-resistant, heavy-duty)
- **Lock boxes / key safes** (mechanical and Bluetooth variants for managed access)
- **Safes and security storage** (varies by market, often alongside their lockbox line)
- **Lockout/Tagout (LOTO)** safety products for industrial settings (a big part of their professional footprint)

Ownership / group: Master Lock is a subsidiary within **Fortune Brands Innovations**’ security portfolio (the same broader group that also houses other security brands).
