Specification Summary

Brand	Master Lock
Product type	Combination

Product Description

The Master Lock ProSeries 1177D is a heavy-duty, resettable combination padlock designed specifically for demanding commercial and industrial environments. Featuring a robust 57mm solid brass body, it offers outstanding corrosion resistance, making it ideal for tough outdoor applications.

Security is at the forefront of the 1177D's design. It features a closed shackle (shrouded) body that shields the 10mm octagonal boron-carbide shackle from cut, crop, and saw attacks. Furthermore, a built-in deadlocking mechanism provides exceptional resistance against prying, shimming, and rap attacks.

This padlock features a user-resettable 4-digit combination mechanism, offering 10,000 possible combinations with no reset tool required to change the code. For reliable operation in harsh conditions, it includes a shackle seal and dial dust cover to protect the internal components from dirt and moisture. Additionally, the innovative 'blind dial' feature allows you to operate the dials easily while wearing gloves or in low-light and complete darkness.

Technical Specifications

- **Body Width:** 57mm
- **Body Material:** Solid Brass
- **Shackle Diameter:** 10mm
- **Shackle Material:** Octagonal Boron Carbide
- **Shackle Type:** Closed Shackle (Shrouded)
- **Vertical Clearance:** 27mm
- **Horizontal Clearance:** 24mm
- **Locking Mechanism:** 4-Wheel Combination (Resettable)
- **Number of Combinations:** 10,000
- **Weight:** 472g

Key Features

- **Commercial & Industrial Grade:** Part of the Master Lock ProSeries® range, designed for high-security applications.
- **Closed Shackle Design:** Shrouded body protects the shackle from physical attacks, including cutting and cropping.
- **Boron-Carbide Shackle:** 10mm octagonal boron-carbide shackle provides superior cut resistance.
- **Resettable Combination:** Set-your-own 4-digit code with 10,000 possible combinations - no reset tool required.
- **Weather Protection:** Shackle seal and dial dust cover protect internal components from dirt, dust, and moisture.
- **Blind Dial Feature:** Large ergonomic dials designed for operation in low-light conditions or while wearing gloves.
- **Attack Resistant:** Deadlocking mechanism protects against prying, shimming, and rap attacks.
- **Corrosion Resistant:** Solid brass body offers excellent durability in outdoor environments.

Brand Profile

Master Lock

Master Lock is the classic American “padlock brand” - the one that’s been on job sites, school lockers, garage doors, and storage units for so long it’s basically part of the urban landscape. The company was founded in **1921** by locksmith-inventor **Harry Soref** in the Milwaukee area, built around his breakthrough **laminated steel padlock** design: strong, affordable, and mass-producible — the security industry’s equivalent of discovering fire, but with more rivets.

What they’re known for is broad “portable security” rather than door hardware:

- **Padlocks** (keyed, combination, weather-resistant, heavy-duty)
- **Lock boxes / key safes** (mechanical and Bluetooth variants for managed access)
- **Safes and security storage** (varies by market, often alongside their lockbox line)
- **Lockout/Tagout (LOTO)** safety products for industrial settings (a big part of their professional footprint)

Ownership / group: Master Lock is a subsidiary within **Fortune Brands Innovations**’ security portfolio (the same broader group that also houses other security brands).
