Specification Summary

Brand	Master Lock
Product type	Lock Out Tag Out

Product Description

The Master Lock S31 Zenex™ Thermoplastic Safety Padlock is designed specifically for Lockout/Tagout (LOTO) applications. Featuring a lightweight yet highly durable thermoplastic body, this padlock is built to withstand harsh industrial environments, offering excellent resistance to chemicals, UV rays, and extreme temperatures.

Equipped with a Marine Grade 316 stainless steel shackle, the S31 provides superior corrosion resistance, making it ideal for use in demanding or corrosive settings. To prevent accidental security lapses, the padlock features a key-retaining cylinder, which ensures the padlock cannot be left unlocked as the key can only be removed when the shackle is closed.

This safety padlock is available in multiple finishes (including Black, Blue, and Red) and keying options (Keyed Alike or Keyed to Differ) to suit your facility's safety protocols. Please choose your preferred finish and keying option from the selection below.

Technical Specifications

- **Body Width:** 35mm
- **Body Material:** Thermoplastic
- **Shackle Diameter:** 5mm
- **Horizontal Clearance:** 38mm
- **Vertical Clearance:** 16mm
- **Shackle Finish:** Marine Grade 316 Stainless Steel
- **Weight:** 81g
- **Keys Supplied:** 1
- **Finishes:** Multiple options available (please select below)
- **Keying:** Keyed Alike or Keyed to Differ (please select below)

Key Features

- **LOTO Specific Design:** Engineered specifically for Lockout/Tagout safety procedures.
- **Durable Thermoplastic Body:** Lightweight Zenex™ construction resists chemicals, UV rays, and extreme temperatures.
- **Corrosion-Resistant Shackle:** Marine Grade 316 stainless steel shackle provides outstanding resistance in harsh environments.
- **Key Retaining Cylinder:** Ensures the padlock is not accidentally left unlocked, as the key can only be removed when locked.
- **Multiple Options:** Available in a choice of colours and keying configurations to fit your safety system.

Brand Profile

Master Lock

Master Lock is the classic American “padlock brand” - the one that’s been on job sites, school lockers, garage doors, and storage units for so long it’s basically part of the urban landscape. The company was founded in **1921** by locksmith-inventor **Harry Soref** in the Milwaukee area, built around his breakthrough **laminated steel padlock** design: strong, affordable, and mass-producible — the security industry’s equivalent of discovering fire, but with more rivets.

What they’re known for is broad “portable security” rather than door hardware:

- **Padlocks** (keyed, combination, weather-resistant, heavy-duty)
- **Lock boxes / key safes** (mechanical and Bluetooth variants for managed access)
- **Safes and security storage** (varies by market, often alongside their lockbox line)
- **Lockout/Tagout (LOTO)** safety products for industrial settings (a big part of their professional footprint)

Ownership / group: Master Lock is a subsidiary within **Fortune Brands Innovations**’ security portfolio (the same broader group that also houses other security brands).
