Specification Summary

Brand	Master Lock
Product type	Hasp & Staple

Product Description

The Master Lock 725EURD Steel Locking Hasp is a convenient, all-in-one security solution designed for basic to medium security applications. Combining a robust hasp with an integrated key-operated lock, it eliminates the need for a separate padlock, making it ideal for securing sheds, gates, garages, cabinets, and toolboxes.

Crafted with a 118mm long chrome-plated steel body, this locking hasp offers excellent strength and weather resistance. The hardened steel staple is specifically designed to resist cutting and sawing attacks, while the single tamper-proof hinge provides robust protection against prying.

For enhanced security, all mounting hardware is fully concealed by the hasp body when locked, preventing unauthorised removal. The hasp is supplied complete with fixing screws for a quick and straightforward installation, along with two keys.

Technical Specifications

- **Length:** 118mm (11.8cm)
- **Body Material:** Chrome-plated steel
- **Staple Material:** Hardened steel
- **Locking Mechanism:** Integrated 4-wafer cylinder

- **Keys Supplied:** 2
- **Hinge Type:** Single tamper-proof hinge
- **Manufacturer Reference:** 725EURD
- **Weight:** 200g

Key Features

- **Integrated Locking Mechanism:** Convenient all-in-one design eliminates the need for a separate padlock.
- **Weather-Resistant Finish:** Durable chrome plating provides excellent protection against the elements.
- **Attack Resistant:** Hardened steel staple resists cutting and sawing, while the single hinge resists prying.
- **Concealed Fixings:** Mounting hardware is completely hidden by the hasp body when locked to prevent tampering.
- **Easy Installation:** Supplied complete with all necessary mounting hardware for a quick setup.

Brand Profile

Master Lock

Master Lock is the classic American “padlock brand” - the one that’s been on job sites, school lockers, garage doors, and storage units for so long it’s basically part of the urban landscape. The company was founded in **1921** by locksmith-inventor **Harry Soref** in the Milwaukee area, built around his breakthrough **laminated steel padlock** design: strong, affordable, and mass-producible — the security industry’s equivalent of discovering fire, but with more rivets.

What they’re known for is broad “portable security” rather than door hardware:

- **Padlocks** (keyed, combination, weather-resistant, heavy-duty)
- **Lock boxes / key safes** (mechanical and Bluetooth variants for managed access)
- **Safes and security storage** (varies by market, often alongside their lockbox line)
- **Lockout/Tagout (LOTO)** safety products for industrial settings (a big part of their professional footprint)

Ownership / group: Master Lock is a subsidiary within **Fortune Brands Innovations**’ security portfolio (the same broader group that also houses other security brands).
