## Product Description

The MILA SupaSecure TS008 Enhanced Letterplate is a high-security letterbox designed to protect homes against common attack methods, including fishing, lock manipulation, and forced removal. Certified to TS008 Grade 2 and PAS 24:2016 standards, this Secured by Design (Police approved) letterplate features a visual deterrent with the SBD logo etched directly onto the surface.

Its design incorporates patented anti-fishing technology with smooth-action concertina fins and an angled postal ramp that deflects items upwards. A restricted 80° opening angle ensures security while remaining accessible for mail delivery. With a slim 45mm internal projection, it is neat, unobtrusive, and allows doors to open fully even in narrow hallways.

This letterplate is quick and simple to install, fitting standard apertures without requiring special fixings or disassembly. It offers exceptional weather sealing, clever water drainage, and high corrosion resistance, having been tested to BS EN 1670 Grade 6 and endurance tested to 20,000 cycles.

Available in multiple finishes and manufacturer references, please choose your preferred option from the selection below.

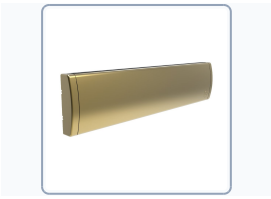

## Technical Specifications

- **Brand:** Mila
- **Door Thickness Compatibility:** 40mm to 80mm
- **Opening Size:** 296mm x 46mm
- **Overall Width:** 340mm
- **Internal Projection:** 45mm
- **Standards & Certifications:** TS008 Grade 2, PAS 24:2016, Secured by Design (SBD) licensed
- **Corrosion Resistance:** BS EN 1670 Grade 6
- **Durability Testing:** 20,000 cycles and 480 hours salt spray
- **Weight:** 200g
- **Guarantee:** 25 Year
- **Finishes:** Multiple options available (please choose from the selection below)

## Key Features

- **Patented Anti-Fishing Technology:** Features concertina fins and an angled postal ramp to deflect fishing attempts
- **Restricted 80° Opening Angle:** Ensures security while remaining fully accessible for mail delivery
