Specification Summary

Brand	Multlock
Product type	Camlock

Product Description

The Mul-T-Lock MT5 High-Security Camlock is a premium locking solution designed to protect cabinets, drawers, lockers, cash boxes, and other enclosures. Combining robust physical construction with Mul-T-Lock's advanced MT5 cylinder platform, this camlock offers exceptional resistance to picking, drilling, and unauthorised key duplication.

At the heart of this camlock is the patented MT5 platform, which utilises a unique telescopic pin tumbler system alongside the innovative Alpha Spring located at the tip of the key. This dual-locking mechanism ensures a high level of security and millions of possible combinations. To prevent unauthorised key copying, each lock is supplied with a coded magnetic duplication card, ensuring keys can only be cut by authorised dealers.

This 22mm model features a durable brass body with a steel cam and is finished in a sleek satin steel. It offers a 90-degree cam rotation and can be adjusted for either clockwise or counter-clockwise operation, making it highly versatile for various installations. Additionally, it can be keyed alike or master-keyed to integrate seamlessly with existing MT5 cylinders and padlocks.

Technical Specifications

- **Cylinder Diameter:** 22mm
- **Body Material:** Brass
- **Cam Material:** Steel
- **Pins Material:** Nickel silver and stainless steel
- **Finish:** Satin steel (Nickel satin)
- **Rotation:** 90° (adjustable for clockwise or counter-clockwise operation)
- **Cylinder Platform:** Mul-T-Lock MT5
- **Key Control:** Magnetic code card required for duplication

Key Features

- **High-Security MT5 Platform:** Features telescopic pin technology and a patented Alpha Spring for advanced protection against picking and manipulation.
- **Unauthorised Key Protection:** Supplied with a magnetic key duplication card to prevent unauthorised key copying.

- **Versatile Application:** Ideal for securing cabinets, lockers, drawers, cash boxes, and display cases.
- **Flexible Operation:** 90-degree rotation that can be configured for clockwise or counter-clockwise opening.
- **Integration Capabilities:** Can be keyed alike or master-keyed to match other Mul-T-Lock MT5 cylinders and padlocks.
- **Durable Construction:** Built with a high-quality brass body and a robust steel cam for long-lasting reliability.

Brand Profile

Multlock

Mul-T-Lock (sometimes typed “Multlock”) is an Israeli high-security locking brand best known for **high-security cylinders**, **patented key systems**, and **mechanical + electromechanical access solutions** aimed at locksmiths, institutions, and commercial sites where key control and attack resistance actually matter.

- **Founded: 1973** in Israel (Mul-T-Lock states “founded in Israel in 1973”).
- **Ownership: Fully owned by ASSA ABLOY**; ASSA ABLOY completed the acquisition on **31 Jan 2000** (consolidated from 1 Feb 2000).

What it’s known for (the “why you’d stock it” bit)

- **High-security mechanical cylinders & keys** with strong key-control stories (patented platforms, restricted profiles, etc.).
- **Electromechanical upgrades** (turning “just a cylinder” into managed access) alongside classic mechanical master-keying for bigger sites.
- A big “locksmith channel” identity: Mul-T-Lock explicitly positions itself as a **locksmiths’ preferred partner**, with authorised centres and support tooling.

Tiny lore nugget

Their early growth story is tied to a “multi-directional / four-way” locking concept that helped launch the brand internationally, and later expansion into more advanced cylinder platforms.
