Is Cylinder

Product Description

The Mul-T-Lock MT5 Euro Anti-Ligature Cylinder is a high-security locking solution specifically designed for environments where safety and self-harm prevention are paramount, such as psychiatric facilities, healthcare institutions, and probationary accommodation.

This innovative cylinder features a specialised anti-ligature thumbturn mechanism that provides occupants with privacy while ensuring that medical or supervisory staff can gain immediate access in an emergency using an external override key.

Built on Mul-T-Lock's advanced MT5 patented key platform, this cylinder offers exceptional protection against common forms of attack, including picking, drilling, and bumping. It utilises a sophisticated telescopic pin configuration alongside a locking bar mechanism to deliver outstanding security and key control.

This 70mm (35/35) Euro profile cylinder is available with either a handle-style or knob-style anti-ligature turn. Please select your preferred option from the list below.

Technical Specifications

- **Cylinder Type:** Euro Profile Key & Turn
- **Cylinder Length:** 70mm (35mm / 35mm)
- **Key Platform:** Mul-T-Lock MT5
- **Turn Options:** Handle or Knob (please select below)
- **Security Features:** Drill, pick, and bump resistant
- **Application:** Anti-ligature for psychiatric, healthcare, and probationary facilities

Key Features

- **Anti-Ligature Design:** Specially engineered to reduce the risk of self-harm in sensitive environments.
- **Emergency Override:** Allows occupant privacy while ensuring immediate external key override for staff access.
- **MT5 Patented Technology:** Combines telescopic pinning and a locking bar mechanism for high-level key control and security.
- **Choice of Turn Style:** Available in both handle and knob variants to suit specific facility requirements.
- **Robust Construction:** Built to withstand physical attacks and heavy-duty use.

Brand Profile

Multlock

Mul-T-Lock (sometimes typed “Multlock”) is an Israeli high-security locking brand best known for **high-security cylinders**, **patented key systems**, and **mechanical + electromechanical access solutions** aimed at locksmiths, institutions, and commercial sites where key control and attack resistance actually matter.

- **Founded: 1973** in Israel (Mul-T-Lock states “founded in Israel in 1973”).
- **Ownership: Fully owned by ASSA ABLOY**; ASSA ABLOY completed the acquisition on **31 Jan 2000** (consolidated from 1 Feb 2000).

What it’s known for (the “why you’d stock it” bit)

- **High-security mechanical cylinders & keys** with strong key-control stories (patented platforms, restricted profiles, etc.).
- **Electromechanical upgrades** (turning “just a cylinder” into managed access) alongside classic mechanical master-keying for bigger sites.
- A big “locksmith channel” identity: Mul-T-Lock explicitly positions itself as a **locksmiths’ preferred partner**, with authorised centres and support tooling.

Tiny lore nugget

Their early growth story is tied to a “multi-directional / four-way” locking concept that helped launch the brand internationally, and later expansion into more advanced cylinder platforms.
