Is Cylinder

Product Description

The Mul-T-Lock MTL500 (formerly MT5) Euro Double Cylinder is a premium high-security lock designed to provide outstanding protection for both residential and commercial properties. This advanced mechanical platform integrates Mul-T-Lock's field-proven technology to offer next-level security and key copy control.

At the heart of the MTL500 / MT5 cylinder is a double locking mechanism. It combines a high-precision telescopic pin tumbler system with the patented Alpha Spring - a unique mobile element located at the tip of the key that engages a special pin at the rear of the cylinder. This multi-layered design provides exceptional resistance against picking, drilling, and bumping.

To prevent unauthorised key duplication, each cylinder is supplied with a unique coded magnetic card. Additional keys can only be cut by authorised Mul-T-Lock dealers upon presentation of this card.

These double cylinders are available in a variety of overall sizes, ranging from 31x31 up to 45x55, and in either a classic Brass or modern Satin finish. Please select your required size and finish from the options below.

Technical Specifications

- **Platform:** Mul-T-Lock MTL500 / MT5
- **Cylinder Type:** Euro Double Cylinder (key entry at both ends)
- **Locking Mechanism:** Double locking (telescopic pins and patented Alpha Spring)
- **Body Material:** Brass
- **Finishes Available:** Brass, Satin

- **Sizes Available:** Overall sizes ranging from 31x31 to 45x55 (please select below)
- **Key Control:** Coded magnetic duplication card required for key cutting
- **Compatibility:** Standard Euro profile lock cases

Key Features

- **Patented Protection:** Features the innovative Alpha Spring at the tip of the key to create an additional shear line and prevent unauthorised duplication.
- **Telescopic Pinning:** Utilises Mul-T-Lock's high-precision telescopic pin tumbler system for superior pick resistance.
- **Enhanced Key Copy Control:** Keys can only be duplicated by authorised dealers upon presentation of the unique magnetic registration card.
- **Attack Resistant:** Engineered to meet high international standards, offering robust resistance to drilling, picking, and bumping.
- **Backward Compatible:** The MTL500 platform is fully backward compatible with existing MT5 systems.
- **Multiple Options:** Available in various sizes and finishes to suit your door thickness and aesthetic preferences.

Brand Profile

Multlock

Mul-T-Lock (sometimes typed “Multlock”) is an Israeli high-security locking brand best known for **high-security cylinders**, **patented key systems**, and **mechanical + electromechanical access solutions** aimed at locksmiths, institutions, and commercial sites where key control and attack resistance actually matter.

- **Founded: 1973** in Israel (Mul-T-Lock states “founded in Israel in 1973”).
- **Ownership: Fully owned by ASSA ABLOY**; ASSA ABLOY completed the acquisition on **31 Jan 2000** (consolidated from 1 Feb 2000).

What it’s known for (the “why you’d stock it” bit)

- **High-security mechanical cylinders & keys** with strong key-control stories (patented platforms, restricted profiles, etc.).
- **Electromechanical upgrades** (turning “just a cylinder” into managed access) alongside classic mechanical master-keying for bigger sites.
- A big “locksmith channel” identity: Mul-T-Lock explicitly positions itself as a **locksmiths’ preferred partner**, with authorised centres and support tooling.

Tiny lore nugget

Their early growth story is tied to a “multi-directional / four-way” locking concept that helped launch the brand internationally, and later expansion into more advanced cylinder platforms.
