Specification Summary

Brand	Multlock
Product type	Double Oval

Product Description

The Mul-T-Lock MT5 UK Oval Dual Key & Key (K&K) Cylinder provides high-security protection for doors fitted with UK oval profile lock cases. Operated by a key from both sides, this double cylinder is ideal for residential and commercial applications where controlled access is required from both the interior and exterior.

Built on Mul-T-Lock's advanced MT5 patented mechanical platform, the cylinder features a dual-locking mechanism. It combines a high-precision telescopic pin configuration with the innovative Alpha Spring at the tip of the key. The Alpha Spring engages a unique pin at the rear of the chamber to create an additional shear line, offering exceptional resistance against picking, bumping, and drilling.

For superior key control, the MT5 system uses a coded magnetic duplication card. Additional keys can only be cut by authorised locksmiths upon presentation of this card, preventing unauthorised duplication.

These cylinders are available in a 70mm (35/35) size in both brass and nickel finishes. Please select your preferred finish from the options below.

Technical Specifications

- **Brand:** Mul-T-Lock
- **Platform:** MT5
- **Profile:** UK Oval (Double Oval)
- **Operation:** Dual Key & Key (K&K) - key operated from both sides
- **Size:** 70mm overall (35mm / 35mm)
- **Finishes:** Brass or Nickel (choose from the options below)

Key Features

- **Patented MT5 Technology:** Combines telescopic pins and a mobile Alpha Spring at the key tip for advanced physical security.
- **Enhanced Attack Resistance:** High-precision design offers robust protection against picking, drilling, and bumping.
- **Strict Key Control:** Coded magnetic card system prevents unauthorised key duplication.
- **Double-Sided Operation:** Key entry from both sides provides convenient and secure locking.

- **Finish Options:** Available in brass or nickel finishes to complement existing door furniture.

Brand Profile

Multlock

Mul-T-Lock (sometimes typed “Multlock”) is an Israeli high-security locking brand best known for **high-security cylinders**, **patented key systems**, and **mechanical + electromechanical access solutions** aimed at locksmiths, institutions, and commercial sites where key control and attack resistance actually matter.

- **Founded: 1973** in Israel (Mul-T-Lock states “founded in Israel in 1973”).
- **Ownership: Fully owned by ASSA ABLOY**; ASSA ABLOY completed the acquisition on **31 Jan 2000** (consolidated from 1 Feb 2000).

What it’s known for (the “why you’d stock it” bit)

- **High-security mechanical cylinders & keys** with strong key-control stories (patented platforms, restricted profiles, etc.).
- **Electromechanical upgrades** (turning “just a cylinder” into managed access) alongside classic mechanical master-keying for bigger sites.
- A big “locksmith channel” identity: Mul-T-Lock explicitly positions itself as a **locksmiths’ preferred partner**, with authorised centres and support tooling.

Tiny lore nugget

Their early growth story is tied to a “multi-directional / four-way” locking concept that helped launch the brand internationally, and later expansion into more advanced cylinder platforms.
