Specification Summary

Brand	Multlock
Product type	Half Oval

Product Description

The Mul-T-Lock MT5 Oval Single Cylinder is a premium high-security half-oval cylinder designed to provide exceptional protection for both residential and commercial applications. Operating on Mul-T-Lock's highly advanced, patented MT5 mechanical platform, this cylinder offers multi-layered security to defend against common forms of lock manipulation, including picking, drilling, and bumping.

At the core of its design is Mul-T-Lock’s field-proven telescopic pin technology, combined with a patented Alpha Spring located at the tip of the key. This mobile element engages an additional level of security inside the cylinder, creating a highly effective and reliable locking mechanism. To ensure maximum key control, keys can only be duplicated upon presentation of the unique coded key card, preventing unauthorised key copying.

This single (half) oval cylinder is compatible with lock cases that accept standard UK oval profile cylinders. It is available in a 44.5mm length with a choice of Brass or Nickel finishes. Please select your preferred finish option from the choices below.

Technical Specifications

- **Cylinder Profile:** UK Oval (Single / Half)
- **Length:** 44.5mm
- **Platform:** Mul-T-Lock MT5
- **Locking Mechanism:** Telescopic pin tumbler system with patented Alpha Spring
- **Finishes Available:** Brass, Nickel
- **Key Control:** Restricted key duplication via unique coded security card

Key Features

- **High-Security Protection:** Advanced resistance against picking, drilling, bumping, and other physical attacks.
- **Patented Alpha Spring:** A mobile element at the tip of the key that engages a unique pin at the rear of the mechanism for enhanced security.
- **Strict Key Control:** Keys can only be duplicated by authorised dealers upon presentation of the magnetic key card.
- **Telescopic Pin Technology:** Utilises Mul-T-Lock's reliable and highly precise inner and outer pin configuration.
- **Finish Options:** Available in both Brass and Nickel finishes to match your existing door hardware.

Brand Profile

Multlock

Mul-T-Lock (sometimes typed “Multlock”) is an Israeli high-security locking brand best known for **high-security cylinders**, **patented key systems**, and **mechanical + electromechanical access solutions** aimed at locksmiths, institutions, and commercial sites where key control and attack resistance actually matter.

- **Founded: 1973** in Israel (Mul-T-Lock states “founded in Israel in 1973”).
- **Ownership: Fully owned by ASSA ABLOY**; ASSA ABLOY completed the acquisition on **31 Jan 2000** (consolidated from 1 Feb 2000).

What it’s known for (the “why you’d stock it” bit)

- **High-security mechanical cylinders & keys** with strong key-control stories (patented platforms, restricted profiles, etc.).
- **Electromechanical upgrades** (turning “just a cylinder” into managed access) alongside classic mechanical master-keying for bigger sites.
- A big “locksmith channel” identity: Mul-T-Lock explicitly positions itself as a **locksmiths’ preferred partner**, with authorised centres and support tooling.

Tiny lore nugget

Their early growth story is tied to a “multi-directional / four-way” locking concept that helped launch the brand internationally, and later expansion into more advanced cylinder platforms.
