Specification Summary

Brand	Multlock
Product type	Screw In

Product Description

The Mul-T-Lock MT5 Threaded Mortice Cylinders (also known as screw-in cylinders) offer premium high-security protection for commercial and residential applications. These cylinders are commonly used on metal doors and are ideal replacements for lock cases from major brands, such as Adams Rite or Mul-T-Lock mortice lock cases.

Built on Mul-T-Lock's patented MT5 mechanical platform, these cylinders feature a highly advanced locking mechanism. This combines telescopic pins with a unique patented Alpha spring at the tip of the key, providing exceptional resistance against picking, drilling, bumping, and unauthorised key duplication. Each cylinder is supplied with a magnetic key card, ensuring that extra keys can only be cut by authorised dealers.

These cylinders are available in a durable Satin Steel finish with a standard 1 1/8" thread. They can be ordered as a Single cylinder, a Pair, or with a Thumb Turn configuration. Please select your required option from the list below.

Technical Specifications

- **Manufacturer:** Mul-T-Lock
- **Security Platform:** MT5
- **Cylinder Type:** Threaded Mortice (Screw-In)
- **Thread Size:** 1 1/8"
- **Finish:** Satin Steel
- **Configurations:** Single Cylinder, Cylinder Pair, or Thumb Turn
- **Key Copy Control:** Patented key card authorisation

Key Features

- **Advanced Security:** Utilises telescopic pins and a patented Alpha spring to provide high resistance to picking, drilling, and bumping.
- **Versatile Compatibility:** Ideal replacement cylinder for metal doors, fitting Adams Rite and Mul-T-Lock mortice lock cases.
- **Strict Key Control:** Keys can only be duplicated upon presentation of the unique magnetic code card at authorised dealers.
- **Multiple Configurations:** Available in Single, Pair, or Thumb Turn options to suit your security setup.

- **Master Key Integration:** Can be keyed-alike or integrated into complex master key suites with other MT5 locks.

Brand Profile

Multlock

Mul-T-Lock (sometimes typed “Multlock”) is an Israeli high-security locking brand best known for **high-security cylinders**, **patented key systems**, and **mechanical + electromechanical access solutions** aimed at locksmiths, institutions, and commercial sites where key control and attack resistance actually matter.

- **Founded: 1973** in Israel (Mul-T-Lock states “founded in Israel in 1973”).
- **Ownership: Fully owned by ASSA ABLOY**; ASSA ABLOY completed the acquisition on **31 Jan 2000** (consolidated from 1 Feb 2000).

What it’s known for (the “why you’d stock it” bit)

- **High-security mechanical cylinders & keys** with strong key-control stories (patented platforms, restricted profiles, etc.).
- **Electromechanical upgrades** (turning “just a cylinder” into managed access) alongside classic mechanical master-keying for bigger sites.
- A big “locksmith channel” identity: Mul-T-Lock explicitly positions itself as a **locksmiths’ preferred partner**, with authorised centres and support tooling.

Tiny lore nugget

Their early growth story is tied to a “multi-directional / four-way” locking concept that helped launch the brand internationally, and later expansion into more advanced cylinder platforms.
