Product Description

These genuine Mul-T-Lock Junior keys are professionally cut to code, providing a reliable and precise replacement or spare key for your security setup. Commonly used on a range of Mul-T-Lock rim cylinders and Mul-T-Lock Junior padlocks, these dimple keys typically feature "08" stamped on the metal blade.

To order, you will need the security code card supplied with your original lock. On the bottom left-hand side of this card, you will find a code consisting of 5 letters (ranging from A to D) and 5 numbers (ranging from 1 to 5) - for example, **ACCBD 12345**.

Simply enter your unique code into the box provided and select the quantity of keys you require. Our expert key-cutting service ensures your new keys are cut to the exact manufacturer specifications for smooth, reliable

operation.

Technical Specifications

- **Key Series:** Mul-T-Lock Junior (08 Keyway)
- **Key Type:** Dimple key
- **Code Format:** 5 letters (A - D) and 5 numbers (1 - 5) (e.g., ACCBD 12345)

Brand Profile

Multlock

Mul-T-Lock (sometimes typed “Multlock”) is an Israeli high-security locking brand best known for **high-security cylinders**, **patented key systems**, and **mechanical + electromechanical access solutions** aimed at locksmiths, institutions, and commercial sites where key control and attack resistance actually matter.

- **Founded: 1973** in Israel (Mul-T-Lock states “founded in Israel in 1973”).
- **Ownership: Fully owned by ASSA ABLOY**; ASSA ABLOY completed the acquisition on **31 Jan 2000** (consolidated from 1 Feb 2000).

What it’s known for (the “why you’d stock it” bit)

- **High-security mechanical cylinders & keys** with strong key-control stories (patented platforms, restricted profiles, etc.).
- **Electromechanical upgrades** (turning “just a cylinder” into managed access) alongside classic mechanical master-keying for bigger sites.
- A big “locksmith channel” identity: Mul-T-Lock explicitly positions itself as a **locksmiths’ preferred partner**, with authorised centres and support tooling.

Tiny lore nugget

Their early growth story is tied to a “multi-directional / four-way” locking concept that helped launch the brand internationally, and later expansion into more advanced cylinder platforms.
