Product Description

Ensure your property remains secure with our professional Mul-T-Lock 3DS key cutting service. We use only genuine Mul-T-Lock 3DS blanks to guarantee the highest quality, smooth operation, and perfect compatibility with your Breaksecure 3DS cylinders.

Our keys are professionally cut to code using advanced, high-precision machinery. Ordering replacement or spare keys is simple:

1. Locate your Mul-T-Lock security card.

2. Find the 8-digit code printed on the bottom right of the card.
3. Enter this 8-digit code into the designated text box on this page.
4. Select the quantity of keys you require and add them to your basket.

Please Note: Due to the highly bespoke nature of custom key cutting, we are unable to offer refunds or exchanges if an incorrect code is provided. Please double-check your 8-digit code carefully before submitting your order to ensure complete accuracy.

Brand Profile

Multlock

Mul-T-Lock (sometimes typed “Multlock”) is an Israeli high-security locking brand best known for **high-security cylinders**, **patented key systems**, and **mechanical + electromechanical access solutions** aimed at locksmiths, institutions, and commercial sites where key control and attack resistance actually matter.

- **Founded: 1973** in Israel (Mul-T-Lock states “founded in Israel in 1973”).
- **Ownership: Fully owned by ASSA ABLOY**; ASSA ABLOY completed the acquisition on **31 Jan 2000** (consolidated from 1 Feb 2000).

What it’s known for (the “why you’d stock it” bit)

- **High-security mechanical cylinders & keys** with strong key-control stories (patented platforms, restricted profiles, etc.).
- **Electromechanical upgrades** (turning “just a cylinder” into managed access) alongside classic mechanical master-keying for bigger sites.
- A big “locksmith channel” identity: Mul-T-Lock explicitly positions itself as a **locksmiths’ preferred partner**, with authorised centres and support tooling.

Tiny lore nugget

Their early growth story is tied to a “multi-directional / four-way” locking concept that helped launch the brand internationally, and later expansion into more advanced cylinder platforms.
