Specification Summary

Brand	Multlock
Product type	Banham Cylinders

Product Description

The Mul-T-Lock Banham Compatible cylinder is a high-security replacement cylinder designed to fit existing Banham-style door locks. It allows you to upgrade your security and key control or replace a worn cylinder without the expense of replacing the entire lock case. This cylinder is ideal for residential front doors, flats, and commercial entrances.

This cylinder is available in multiple sizes, finishes, and configurations to suit your door's requirements. Choose from 76mm (38x38) or 101mm (33x68) sizes, in either a classic Brass or modern Nickel finish. You can also select between standard double key operation or a thumbturn option for convenient keyless egress from the inside. Please note that for thumbturn models, the "R" in the size specification denotes the side where the turn is located.

Please choose your preferred size, finish, and operation from the options below.

Technical Specifications

- **Manufacturer:** Mul-T-Lock
- **Compatibility:** Fits existing Banham-style lock cases
- **Sizes Available:** 76mm (38x38) and 101mm (33x68)
- **Finishes:** Brass and Nickel
- **Cylinder Type:** Double key or Thumbturn (R denotes turn side)
- **Keys Supplied:** 2 keys and a security code card

Key Features

- **Banham Compatible:** Replaces existing Banham-style cylinders without needing to change the entire lock system.
- **Upgraded Security:** Enhances physical protection and key control for homes, flats, and commercial properties.
- **Flexible Configurations:** Available in double key or thumbturn options to balance security and convenient egress.
- **Premium Finishes:** Choose from Brass or Nickel to match your existing door hardware.
- **Restricted Keying:** Supplied with a security card to prevent unauthorised key duplication.

Brand Profile

Multlock

Mul-T-Lock (sometimes typed “Multlock”) is an Israeli high-security locking brand best known for **high-security cylinders**, **patented key systems**, and **mechanical + electromechanical access solutions** aimed at locksmiths, institutions, and commercial sites where key control and attack resistance actually matter.

- **Founded: 1973** in Israel (Mul-T-Lock states “founded in Israel in 1973”).
- **Ownership: Fully owned by ASSA ABLOY**; ASSA ABLOY completed the acquisition on **31 Jan 2000** (consolidated from 1 Feb 2000).

What it’s known for (the “why you’d stock it” bit)

- **High-security mechanical cylinders & keys** with strong key-control stories (patented platforms, restricted profiles, etc.).
- **Electromechanical upgrades** (turning “just a cylinder” into managed access) alongside classic mechanical master-keying for bigger sites.
- A big “locksmith channel” identity: Mul-T-Lock explicitly positions itself as a **locksmiths’ preferred partner**, with authorised centres and support tooling.

Tiny lore nugget

Their early growth story is tied to a “multi-directional / four-way” locking concept that helped launch the brand internationally, and later expansion into more advanced cylinder platforms.
