Is Cylinder

Product Description

The Mul-T-Lock MTL300 Euro Double Cylinder is a high-security locking solution designed to protect your home or business against forced entry. Fully tested and approved to the TS007 3-star standard, this premium cylinder offers ultimate defence against lock snapping, drilling, picking, and bumping.

Built on a patented pin platform, the MTL300 utilises a unique telescopic pin configuration to deliver superior resistance to manipulation. It also features a sacrificial snap line, which ensures that if the lock is attacked, the front section breaks away cleanly to leave the inner mechanism intact and secure. For added peace of mind, the cylinder is supplied with a security code card, preventing unauthorised key duplication.

This double euro cylinder is available in a variety of overall sizes and finishes, including Satin and Brass, to perfectly match your door hardware. Please select your preferred size and finish from the options below.

Technical Specifications

- **Certification:** TS007 3-Star rated, BS EN 1303:2015 compliant
- **Security Standards:** SS312 Diamond approved
- **Cylinder Type:** Double Euro Profile
- **Pin System:** Patented telescopic pin technology

- **Key Copy Protection:** Patented key control with security card authorisation
- **Finishes Available:** Satin and Brass options (please select from the options below)
- **Sizes Available:** Multiple overall sizes available (please select from the options below)

Key Features

- **TS007 3-Star Protection:** Offers the highest level of security against lock snapping, drilling, picking, and bumping.
- **Sacrificial Snap Line:** Designed to snap at a predetermined point during an attack, keeping the core locking mechanism secure.
- **Patented Key Control:** Keys can only be duplicated upon presentation of the unique security code card.
- **Telescopic Pin Technology:** Advanced pin-in-pin system provides exceptional resistance to picking and manipulation.
- **Versatile Options:** Available in multiple sizes and finishes to suit a wide range of uPVC, composite, and timber doors.

Brand Profile

Multlock

Mul-T-Lock (sometimes typed “Multlock”) is an Israeli high-security locking brand best known for **high-security cylinders**, **patented key systems**, and **mechanical + electromechanical access solutions** aimed at locksmiths, institutions, and commercial sites where key control and attack resistance actually matter.

- **Founded: 1973** in Israel (Mul-T-Lock states “founded in Israel in 1973”).
- **Ownership: Fully owned by ASSA ABLOY**; ASSA ABLOY completed the acquisition on **31 Jan 2000** (consolidated from 1 Feb 2000).

What it’s known for (the “why you’d stock it” bit)

- **High-security mechanical cylinders & keys** with strong key-control stories (patented platforms, restricted profiles, etc.).
- **Electromechanical upgrades** (turning “just a cylinder” into managed access) alongside classic mechanical master-keying for bigger sites.
- A big “locksmith channel” identity: Mul-T-Lock explicitly positions itself as a **locksmiths’ preferred partner**, with authorised centres and support tooling.

Tiny lore nugget

Their early growth story is tied to a “multi-directional / four-way” locking concept that helped launch the brand internationally, and later expansion into more advanced cylinder platforms.
