Specification Summary

Brand	Multlock
Product type	Mul-T-Lock Padlocks C-Series Range
Keyway	Mul-T-Lock C-Series

Product Description

The Mul-T-Lock C8 Padlock is a professional, high-security padlock designed to deliver exceptional physical protection and reliable performance in demanding environments. Featuring a CEN Grade 2 security rating, this padlock is ideal for general-purpose security applications, including securing gates, warehouses, and commercial premises.

Constructed with a hardened steel body shell and a hardened boron alloy steel shackle, the C8 offers robust resistance against sawing, drilling, and physical attacks. It features a pop-open shackle design with a key-retaining mechanism, meaning the key is required to lock the padlock, preventing accidental locking.

Engineered for durability in all weather conditions, the C8 is equipped with a protective shutter to prevent dust and dirt contamination, alongside drainage holes to prevent freezing in cold climates. It utilises Mul-T-Lock's high-precision pin tumbler cylinder, providing excellent resistance against picking and drilling.

Technical Specifications

- **CEN Rating:** Grade 2
- **Body Width:** 50mm
- **Body Height:** 47mm

- **Body Thickness:** 22mm
- **Shackle Diameter:** 8mm
- **Shackle Clearance:** 22mm (vertical), 22mm (horizontal)
- **Body Material:** Hardened steel shell with black-plated solid brass core
- **Shackle Material:** Hardened boron alloy steel
- **Shackle Type:** Pop-open (key retaining)
- **Manufacturer Reference:** C8 POP - CEN 2 (Part Number: 51304041)

Key Features

- **High-Security Construction:** Hardened steel body shell and a hardened boron alloy steel shackle provide robust resistance against physical attacks.
- **CEN Grade 2 Certified:** Independently tested and certified to CEN Grade 2 standards for reliable security.
- **Weather Resistant:** Features drainage holes to prevent freezing and a protective shutter to guard the cylinder against dust and dirt.
- **Pop-Open Shackle:** Convenient pop-open action with a key-retaining design to prevent accidental locking.
- **Pick & Drill Resistant:** Utilises Mul-T-Lock's high-precision pin tumbler cylinder mechanism to resist manipulation and drilling.

Brand Profile

Multlock

Mul-T-Lock (sometimes typed “Multlock”) is an Israeli high-security locking brand best known for **high-security cylinders**, **patented key systems**, and **mechanical + electromechanical access solutions** aimed at locksmiths, institutions, and commercial sites where key control and attack resistance actually matter.

- **Founded: 1973** in Israel (Mul-T-Lock states “founded in Israel in 1973”).
- **Ownership: Fully owned by ASSA ABLOY**; ASSA ABLOY completed the acquisition on **31 Jan 2000** (consolidated from 1 Feb 2000).

What it’s known for (the “why you’d stock it” bit)

- **High-security mechanical cylinders & keys** with strong key-control stories (patented platforms, restricted profiles, etc.).
- **Electromechanical upgrades** (turning “just a cylinder” into managed access) alongside classic mechanical master-keying for bigger sites.
- A big “locksmith channel” identity: Mul-T-Lock explicitly positions itself as a **locksmiths’ preferred partner**, with authorised centres and support tooling.

Tiny lore nugget

Their early growth story is tied to a “multi-directional / four-way” locking concept that helped launch the brand internationally, and later expansion into more advanced cylinder platforms.
