Is Cylinder

Product Description

The Mul-T-Lock Garrison 7x7 Euro Cylinder is a highly popular double cylinder lock, offering dependable standard security for residential and light commercial doors. Operated by key from both sides, this cylinder features a high-precision pin tumbler mechanism designed to protect your property.

Each cylinder is supplied with two reversible nickel silver dimple keys and a security key card. The reversible key design has no sharp edges and inserts either way up, making it exceptionally user-friendly. For versatile security setups, these cylinders can be keyed alike or integrated into a master key system alongside other locks in the Mul-T-Lock Garrison range, including padlocks, rim cylinders, and Garrison XP anti-snap BS 3-star cylinders.

These cylinders are available in a wide selection of sizes and in both Brass and Satin finishes. Please choose your required size and finish from the options below.

Please note: Due to their compact physical length, the 23/23 and 31/31 sizes do not feature the full 7-pin mechanism.

Technical Specifications

- **Lock Type:** Double Euro Cylinder (key operated from both sides)
- **Keying Platform:** Mul-T-Lock Garrison 7x7
- **Mechanism:** 7-pin tumbler (excluding 23/23 and 31/31 sizes)
- **Keys Supplied:** 2 keys per standard cylinder
- **Finishes Available:** Brass and Satin

- **Sizes Available:** Multiple options from 23/23 up to 45/50 (please select below)
- **Key Duplication:** Controlled duplication via the included security key card

Key Features

- **Reversible Dimple Keys:** User-friendly flat keys with no sharp edges that insert either way up.
- **Flexible Keying Options:** Can be keyed alike or master-keyed to other Garrison locks, including padlocks and rim cylinders.
- **System Compatibility:** Can be integrated into systems alongside Garrison XP anti-snap BS 3-star cylinders.
- **Security Card Included:** Supplied with a uniquely coded card to control key duplication and prevent unauthorised copies.
- **Durable Construction:** High-quality brass or satin finish options to match existing door hardware.

Brand Profile

Multlock

Mul-T-Lock (sometimes typed “Multlock”) is an Israeli high-security locking brand best known for **high-security cylinders**, **patented key systems**, and **mechanical + electromechanical access solutions** aimed at locksmiths, institutions, and commercial sites where key control and attack resistance actually matter.

- **Founded: 1973** in Israel (Mul-T-Lock states “founded in Israel in 1973”).
- **Ownership: Fully owned by ASSA ABLOY**; ASSA ABLOY completed the acquisition on **31 Jan 2000** (consolidated from 1 Feb 2000).

What it’s known for (the “why you’d stock it” bit)

- **High-security mechanical cylinders & keys** with strong key-control stories (patented platforms, restricted profiles, etc.).
- **Electromechanical upgrades** (turning “just a cylinder” into managed access) alongside classic mechanical master-keying for bigger sites.
- A big “locksmith channel” identity: Mul-T-Lock explicitly positions itself as a **locksmiths’ preferred partner**, with authorised centres and support tooling.

Tiny lore nugget

Their early growth story is tied to a “multi-directional / four-way” locking concept that helped launch the brand internationally, and later expansion into more advanced cylinder platforms.
