Is Cylinder

Product Description

The Mul-T-Lock Garrison 7x7 Euro Thumb Turn cylinder offers a reliable, high-quality standard security solution for residential and commercial doors. Featuring a convenient thumb turn on the inside, it allows for quick and easy locking and unlocking without a key, making it ideal for emergency exits and everyday convenience. On the outside, it operates via a high-precision dimple key.

This cylinder utilizes Mul-T-Lock's robust 7-pin tumbler mechanism (note: 23x23 and 31x31 sizes are not 7-pin due to physical size limitations) to provide dependable protection. It comes with reversible nickel-silver keys that are easy to insert and operate from either side. For added security and control, each cylinder is supplied with a uniquely coded key card, ensuring restricted key duplication through authorised dealers.

The Garrison 7x7 platform is highly versatile and can be keyed alike or integrated into a master key system alongside other Garrison 7x7 double cylinders, single cylinders, rim cylinders, and padlocks.

We offer a wide range of sizes, finishes (including Brass, Satin, and Steel), and configurations, including a classroom function variant. Please select your required size and finish from the options below.

Technical Specifications

- **Cylinder Profile:** Euro profile key and turn
- **Mechanism:** 7-pin tumbler system (except 23x23 and 31x31 sizes)
- **Key Type:** Reversible nickel-silver dimple keys
- **Key Control:** Restricted key duplication via a uniquely coded key card
- **Finishes Available:** Brass, Satin, and Steel (please select below)
- **Sizes Available:** Multiple offset and equal sizes ranging from 23x23mm to 65x35mm (please select below)

- **Compatibility:** Can be keyed alike or master-keyed with other Mul-T-Lock Garrison 7x7 products

Key Features

- **Thumb Turn Convenience:** Easy locking and unlocking from the inside without a key, ideal for emergency egress.
- **Reversible Keys:** User-friendly dimple keys that work regardless of which way they are inserted.
- **Enhanced Key Security:** Coded key card prevents unauthorised key cutting.
- **Master Key Compatible:** Easily integrated into master key suites or keyed alike sets for schools, businesses, and homes.
- **Flexible Options:** Available in a wide selection of sizes, finishes, and specialist configurations (such as classroom function).

Brand Profile

Multlock

Mul-T-Lock (sometimes typed “Multlock”) is an Israeli high-security locking brand best known for **high-security cylinders**, **patented key systems**, and **mechanical + electromechanical access solutions** aimed at locksmiths, institutions, and commercial sites where key control and attack resistance actually matter.

- **Founded: 1973** in Israel (Mul-T-Lock states “founded in Israel in 1973”).
- **Ownership: Fully owned by ASSA ABLOY**; ASSA ABLOY completed the acquisition on **31 Jan 2000** (consolidated from 1 Feb 2000).

What it’s known for (the “why you’d stock it” bit)

- **High-security mechanical cylinders & keys** with strong key-control stories (patented platforms, restricted profiles, etc.).
- **Electromechanical upgrades** (turning “just a cylinder” into managed access) alongside classic mechanical master-keying for bigger sites.
- A big “locksmith channel” identity: Mul-T-Lock explicitly positions itself as a **locksmiths’ preferred partner**, with authorised centres and support tooling.

Tiny lore nugget

Their early growth story is tied to a “multi-directional / four-way” locking concept that helped launch the brand internationally, and later expansion into more advanced cylinder platforms.
