### Product Description

The Mul-T-Lock Garrison Half Euro Cylinder is a high-quality, single-sided cylinder lock designed for applications where key access is only required from one side, such as garage doors, key switches, and patio doors. Part of the popular Garrison (7x7) series, this cylinder features a robust 7-pin tumbler mechanism that provides dependable security and smooth operation.

One of the key advantages of the Garrison system is its exceptional flexibility. These half euro cylinders can be keyed alike or master-keyed to other locks in the Garrison range, including double cylinders, thumbturns, rim cylinders, and padlocks. They can also be integrated with the XP TS007 anti-snap cylinder range, allowing you to create a convenient, single-key solution for your entire property.

Available in a selection of sizes and finishes, including satin steel and brass, you can choose the ideal option to match your existing door hardware. Please select your required size, finish, and keying options from the options below.

## Technical Specifications

- Platform: Mul-T-Lock Garrison (7x7)
- Cylinder Type: Half Euro (Single) Cylinder
- Mechanism: 7-pin tumbler system
- Material: Brass body and plug
- Finishes: Available in Satin Steel and Brass

## Brand Profile

Multlock

**Mul-T-Lock** (sometimes typed “Multlock”) is an Israeli high-security locking brand best known for **high-security cylinders**, **patented key systems**, and **mechanical + electromechanical access solutions** aimed at locksmiths, institutions, and commercial sites where key control and attack resistance actually matter.

- **Founded: 1973** in Israel (Mul-T-Lock states “founded in Israel in 1973”).
- **Ownership: Fully owned by ASSA ABLOY**; ASSA ABLOY completed the acquisition on **31 Jan 2000** (consolidated from 1 Feb 2000).

### What it’s known for (the “why you’d stock it” bit)

- **High-security mechanical cylinders & keys** with strong key-control stories (patented platforms, restricted profiles, etc.).
- **Electromechanical upgrades** (turning “just a cylinder” into managed access) alongside classic mechanical master-keying for bigger sites.
- A big “locksmith channel” identity: Mul-T-Lock explicitly positions itself as a **locksmiths’ preferred partner**, with authorised centres and support tooling.

### Tiny lore nugget

Their early growth story is tied to a “multi-directional / four-way” locking concept that helped launch the brand internationally, and later expansion into more advanced cylinder platforms.
